TTY USERS CALL VIA MD RELAY

***A MESSAGE FROM GOVERNOR MARTIN O'MALLEY***

Dear Friends:

I am pleased to present the Maryland Department of Juvenile Services inaugural Data Resource Guide. This publication brings greater transparency to our State government and is an easy way for you to learn about the services provided by the Department.

Here in Maryland, we believe in accountable, responsible governing and have set the goal of reducing violent crime in Maryland by 20 percent by the end of 2012. Furthermore, we know that crimes against women and children are extremely damaging, as they can impact a family for generations. To improve public safety for all Marylanders, we have set a more rigorous goal and implemented a plan to reduce violent crime against women and children by 25 percent by the end of 2012.

In order to track the progress of these and other policy goals, we use a performance-measurement and management tool called StateStat. This guide takes StateStat's philosophy and deeply examines data on regional and county levels. It arms the Maryland Department of Juvenile Services with necessary information to work more effectively and allows local leaders and law enforcement to understand the specifics of juvenile delinquent activity in their jurisdictions, informing the deployment of appropriate public safety resources.

Public safety is the greatest responsibility of government at every level and together we can fight to make our neighborhoods safer for every Maryland family. I hope that you will take advantage of the services described in this guide and gain a greater understanding of the Maryland Department of Juvenile Services. Thank you for your commitment to our communities.

Sincerely,

Governor

## A Word from the Secretary...

As this *Data Resource Guide* goes to print, I am marking nearly one year with the Department of Juvenile Services. This first year has been the most challenging as well as the most rewarding time of my life. Much has changed within the Department and more change is on the horizon. What has not changed is the level of commitment that the people working at DJS have for the success of Maryland's youth. The passion shown by so many DJS employees across the state ensures that working together we will succeed in overcoming the challenges before us.

After re-organizing the management structure in Headquarters, we have embarked on a number of initiatives to move us forward. First and perhaps most important, procedure committees are in place and working to update all of the agency procedures and policies so that expectations for everyone are clear. It is vital to the health of the agency that we have procedures that provide guidance to staff and that are in line with current practices.

We have also restarted our JDAI initiative in Baltimore City with plans to expand to other localities. This partnership with the Annie E. Casey Foundation will further sharpen our detention practices so that we utilize this resource only when it is necessary. This enhances public safety because by keeping low-risk youth in the community, detention beds will be available for high-risk youth who pose a greater threat to the public.

Young females involved in the system have been a focus this first year and as a result, without any additional funding, DJS has been able to significantly improve the level of services for this population. In Prince George's County, two day and/or evening reporting centers have opened their doors to females. A new reporting center in Montgomery County should be open by the time you read this and in Baltimore City, the PACT center also began accepting females this past year. Each of these slots offers an opportunity to divert young women from detention and from moving further into the system.

In addition to these successes, we have also taken an extraordinary step in a positive direction for young women committed to the Department. In October of 2011, the Department closed the J. DeWeese Carter Center for detained boys and re-opened it in November as a committed program for girls. This change gives young women committed to the Department a facility of their own, dedicated to their treatment and well-being.

Much more is being planned for DJS. Following the statewide strategic planning meeting in August, where we brought together our agency leaders along with our partners to discuss the direction in which this agency should go, a second much smaller group of DJS leaders has been assembled and is working to re-define our mission, values, and goals. This plan is being developed by a diverse cross section of agency staff based on the conversations had at the statewide meeting, as well as the knowledge and unique experience that each member brings to the table. Strategies for achieving the goals set will be the impetus of change going forward.

Finally, the completion of this *Data Resource Guide* is the beginning of a new way of using the vast data we collect. Through this report, managers will have locally specific information that will guide decision making in the field as well as policy makers within DJS and across the State. This is intended to be a living document, so as new information becomes available or new ways of evaluating it are revealed, this *Guide* will evolve as well. I want to offer my sincere appreciation to everyone who made this publication possible. The Research, Evaluation, and Planning Unit along with the Information Technology Unit has worked tirelessly to put this information together. I would also be remiss if I did not acknowledge the community, detention, and committed program staff who gather the data each day that is used in this *Guide*. Without their tremendous efforts, such a compilation would not be possible.

Sincerely,

Sam Abed

## Terms and Concepts

**Absent Without Leave (AWOL):** A youth who absconds from a non-secure residential program.

**Adjudicatory Hearing:** Proceeding before a juvenile judge or master to determine the truth of allegations made against a youth. If the allegations concerning the commitment of a delinquent act are found to be true, the youth is adjudicated delinquent.

**Aftercare:** Individualized services provided to a youth who is discharged from a residential program.

**Alternatives To Detention (ATD):** Residential settings or services provided to a youth in lieu of detention that satisfy the detaining court's requirement to keep the youth and the public safe and to ensure the youth appears in court. Alternatives to detention may include: home; home with additional services; home under community detention and/or electronic monitoring; family shelter care; structured shelter care; acute care hospitals; and psychiatric respite care programs.

**Automated Statewide System of Information Support Tools (ASSIST):** DJS client database.

**Average Daily Population (ADP):** Daily population of youth in residential placement (state or privately owned) averaged over 365 days.

**Average Length of Stay (ALOS):** Average total number of days in residential placement between admission and release. Youth detained in more than one facility but in contiguous stays are counted as a single detention placement.

**Baltimore City Detention Center (BCDC):** The facility operated by DPSCS to detain adults and youth charged in the adult system.

**Case Management Specialist:** DJS staff who provide case management services in a community or residential setting to emotionally or socially maladjusted, delinquent, or victimized juveniles.

**Certificate of Placement (COP):** The document which reflects youth's location, services, and authorizes payment for services.

**Child In Need of Assistance (CINA):** A youth who has been physically, sexually, or emotionally abused or neglected by a parent or other person responsible for the youth's care.

**Child In Need of Supervision (CINS):** A youth who commits an offense that, if committed by an adult, would not be a crime. For example; truancy, run-away or "ungovernable."

**Commitment versus Admission:** A commitment is a court order placing a delinquent juvenile in DJS' care. The youth is usually placed into an out-of-home program, but may also be provided services at home. An admission occurs when a juvenile physically arrives at a facility and is officially entered into the facility's rolls. An admission may occur days/weeks after the juvenile is committed to DJS (during which time he/she is held in secure detention, in "pending placement" status.) A single admission to an out-of-home program could be the result of multiple commitments to DJS (e.g. a juvenile may be committed by more than one court, or have multiple charges with "committed" dispositions). Therefore, the number of commitments in a FY will be slightly different from the number of admissions to committed programs.

**Community Detention (CD):** The supervision and guidance of juveniles under court ordered placement to the DJS Community Detention Program. DJS ensures youth compliance with the terms and conditions of community detention through supervision, field visits, surveillance, and electronic monitoring.

**Complaint:** A written statement made by any person or agency to a DJS intake officer, which if true would support the allegations of a juvenile petition.

**Day/Evening Reporting Center (D/ERC):** A program that serves youth as an alternative to detention. Youth are required to report daily to ensure the youth is monitored and gets back to court for hearings.

**Delinquent:** A youth who has been adjudicated for an act which would be a crime if committed by an adult and who requires guidance, treatment, or rehabilitation.

**Detention:** Temporary, short-term (1-30 days) physically secure housing of youth who are awaiting court disposition.

**Detention Hearing:** A court proceeding to determine whether a youth shall be placed in or continued in detention.

**Detention Risk Assessment Instrument (DRAI):** An assessment of a youth's risk to the community and of failing to appear for future court dates to determine potential eligibility for placement in a detention alternative.

**Disposition:** The action taken by the juvenile court that outlines whether the youth requires guidance, treatment, or rehabilitation and, if so, the nature of such assistance that an adjudicated youth will receive. (Note: In adult courts, this is known as a "sentence.")

**Disproportionate Minority Contact (DMC):** A rate of contact with the juvenile justice system among youth of a specific minority group that is significantly different than the rate of contact for whites (i.e., non-Hispanic Caucasians) or for other minority groups. The purpose of the DMC core requirement remains the same: to ensure equal and fair treatment for every youth in the juvenile justice system, regardless of race and ethnicity.

**Electronic Monitoring (EM):** A statewide program providing close monitoring of youth while in the community as an alternative to residential placement or detention. Youth are fitted with an ankle bracelet that monitors youth movement and compliance within established location parameters.

**Escape:** A youth who absconds from a secure residential program.

**Evidence Based Programs/Practices (EBS):** Programs that have been found to be effective based on the results of rigorous evaluations.

**Felony vs. Misdemeanor:** In Maryland a crime is either a felony or a misdemeanor. Generally, felonies are the more serious of these two types of crimes. However, there is no clear line for determining whether a crime is a felony or misdemeanor based on the length of incarceration. Unless specified in a statute or unless an offense was a felony at common law, a crime will be considered a misdemeanor. Most statutes specify whether a crime is a misdemeanor or a felony. Common law crimes retain their

common law grades as either felonies or misdemeanors unless changed through the legislative process. The General Assembly may choose to label a statutory crime a felony or misdemeanor independent of the amount of punishment the statute provides. The General Assembly may also choose to change the status of a crime from a misdemeanor to a felony or a felony to a misdemeanor.

**Fiscal Year (FY):** The time period measured from July 1st of one year to June 30th of the following year. FY 2011 runs from July 1, 2010 through June 30, 2011.

**For Authorization of Formal Petition (FAFP):** DJS has statutory authority to screen all juvenile complaints referred. A case which is not resolved or diverted through an informal agreement by DJS intake officers will result in an FAFP which requests that the juvenile court take action on the complaint.

**Functional Family Therapy (FFT - an EBS):** An outcome-driven prevention/intervention program for youth who have demonstrated the entire range of maladaptive behaviors such as delinquency, violence, substance use, Conduct Disorder, Oppositional Defiant Disorder, or Disruptive Behavior Disorder. Flexible delivery of service by one and (rarely) two person teams to clients in-home, clinic, school, juvenile court, community-based programs, and at time of re-entry from institutional placement.

**Global Positioning System (GPS):** A global navigation satellite system that provides location and time information of anyone with a global positioning system receiver.

**Group Home:** A long-term, community-based residential program that provides a youth with a group living experience, counseling, supervision, and support services.

**Hardware Secure Facility:** A facility that relies primarily on the use of construction and hardware such as locks, bars, and fences to restrict freedom.

**Informal (or "Pre-Court") Supervision:** An agreement between DJS and a youth and family to enter into counseling and/or supervision by a case manager of a youth without court involvement.

**Intake:** The process for reviewing a complaint against a youth and determining whether the juvenile court has jurisdiction and whether judicial action is in the best interest of the public and/or the youth. During intake youth and their family are offered services.

**Juvenile Court:** A division of the Circuit Court in Maryland.

**Juvenile Detention Alternatives Initiative (JDAI):** A best practice model that eliminates inappropriate and unnecessary use of detention and reduces the failures of juveniles to appear in court. The goals of JDAI are to reduce overcrowding in detention centers by safely maintaining the youth in the community in detention alternatives without jeopardizing public safety or increasing the number of youth who fail to appear for court.

**Juvenile Justice Monitoring Unit (JJMU):** The Unit investigates the needs of children under the jurisdiction of DJS and determines whether their needs are being met in compliance with State law. This includes

evaluating conditions of facilities housing youth, reporting on treatment of and services to youth, and investigating allegations of child abuse.

**Maryland Comprehensive Assessment and Service Planning (MCASP):** MCASP uses integrated case management to assess youths' risks and needs throughout the course of their involvement with DJS and to develop interventions that accomplish the dual goals of public safety and youth rehabilitation. MCASP enables DJS to strengthen individualized service plans for youth and their families and match them with appropriate services and programs, track youth progress, and ensure that each youth receives the level of supervision consistent with his or her risk to public safety.

**Maryland Police and Correctional Training Commissions (MPCTC):** Under DPSCS, MPCTC is vested with the authority to set standards of initial selection and training for all governmental law enforcement, correctional, parole and probation, and juvenile services employees in the State of Maryland, and to otherwise upgrade the professionalism of these officers. Provisionally certified DJS employees must successfully complete entry-level training and become fully certified within 365 days of provisional certification. Fully certified DJS employees must successfully complete 18 hours of MPCTC approved mandated employee in-service training by December 31 of each calendar year. Employees are required to maintain certification.

**Multidimensional Treatment Foster Care (MTFC - an EBS):** A cost-effective alternative to group or residential treatment, committed placements, and hospitalization for youth with chronic anti-social behavior, emotional disturbance, and delinquency. Community families are recruited, trained, and closely supervised to provide youth with treatment and intensive supervision at home, in school, and in the community; clear and consistent limits with follow-through on consequences; positive reinforcement for appropriate behavior; a relationship with a mentoring adult; and separation from delinquent peers.

**Multisystemic Therapy (MST - an EBS):** An intensive family- and community-based treatment program that addresses the serious anti-social behavior of juvenile offenders. The major goal of MST is to empower parents and youth with the skills and resources needed to independently resolve the difficulties that arise in coping with family, peer, school, and neighborhood problems. Intervention strategies include family therapy, structural family therapy, behavioral parent training, and cognitive behavior therapies. MST is a home-based model of service delivery.

**Operation Safe Kids (OSK):** A collaboration between the health department, DJS and other state and city agencies to provide intensive community-based case management and monitoring of high-risk juvenile offenders to prevent them from becoming victims or perpetrators of violent crimes and to ensure that they have the tools to become productive adults.

**Pending Placement:** Youth who have been committed for placement in an out-of-home residential facility and are awaiting placement. Youth may be pending placement in a variety of settings including: detention; home; home with additional services; home under community detention

and/or electronic monitoring; family shelter care; structured shelter care; acute care hospitals; or psychiatric respite care programs.

**Petition:** A formal written request filed with the juvenile court alleging that a child is delinquent, in need of supervision (CINS) or in need of assistance (CINA).

**Performance-based Standards (PbS):** PbS for Youth Correction and Detention Facilities is a system for agencies and facilities to identify, monitor, and improve conditions and treatment services provided to incarcerated youths using national standards and outcome measures. Directed by the CJCA, PbS asks participants to regularly collect and analyze data to target specific areas for improvement.

**Placements versus Admissions:** A placement is based on a decision made by an intake officer or judge to place a youth into detention or a committed program. An admission occurs when a youth physically enters a facility either through direct placement or through transfer. Therefore, during one placement, a youth may have several admissions and these counts will not match.

**Pre-Adjudication Coordination and Training (PACT):** PACT Evening Reporting Center serves youth 14 to 17 years of age who would otherwise be in juvenile detention. It utilizes a youth development model and works to collaborate with participants, their families, DJS, and other partners to develop a plan, in which they're invested to address the underlying issues which lead to anti-social or deviant behavior.

**Prison Rape Elimination Act (PREA):** PREA, P.L. 108-79, was enacted by Congress to address the problem of sexual abuse of persons in the custody of U.S. correctional agencies. The Act applies to all public and private institutions that house adult or juvenile offenders and is also relevant to community-based agencies; and addresses both inmate-on-inmate sexual abuse and staff sexual misconduct.

**Probation:** Court-ordered supervision of youth in the community that may include community service, restitution, counseling, etc.

**Recidivism:** Subsequent juvenile or adult criminal involvement of youths released from DJS committed residential programs.

**Relative Rate Index (RRI):** Rate of Disproportionate Minority Contact (DMC) in the DJS system. RRI calculates at each decision point the likelihood of a minority group progressing deeper into the system. The decision points include detention, petition filed, and commitment.

**Resident Advisor:** DJS staff position that provides supervision, support, care and monitoring of youth placed in DJS-operated facilities.

**Residential Treatment Center (RTC):** A mental health facility for children and adolescents who have long-term serious emotional, behavioral, and psychological problems. RTCs focus on maximizing a youth's development of appropriate living skills and enhancement of emotional and social development. RTCs provide intensive services and should only be considered when therapeutic services available in the community are insufficient to address the youth's needs.

**Resolved at Intake:** A determination that furthering the case would be disadvantageous to the interests of the youth and to public safety.

**Shelter Care:** Temporary, short-term (1-30 days), non-secure housing of youth who are awaiting court disposition. Shelter beds serve as an alternative to detention or other short-term circumstance where family or other housing is not available.

**Social History Investigation (SHI - formerly PDI):** The written study of a youth and his/her family that is presented to the juvenile court. A Social History Investigation emphasizes social and legal histories as well as the domain areas of: family functioning, substance abuse, mental health, somatic health, education, employment, and life skills.

**Spotlight on Schools (SOS) Program:** A statewide initiative to place case managers on-site at over 100 local high schools and middle schools across the state. DJS Spotlight workers monitor and respond immediately to attendance issues, referrals for disruptive behavior, suspensions, and drop out issues for youth who are under the jurisdiction of DJS. Prevention and early intervention services also are offered to other students who are either referred by school administrators or who are in crisis. In addition, Spotlight workers provide immediate, on-site intake services for any student who is involved in delinquent activity.

**Staff Secure:** Programs where a youth's movement is controlled by staff supervision rather than by restrictive architectural features.

**State Advisory Board:** The Board consists of 19 members appointed by the Governor for three-year terms. The Board recommends to the Secretary of Juvenile Services policies and programs to improve State juvenile services. The Board helps plan development and use of resources, and helps inform the public of the Department's work.

**Statewide Maryland Automated Records Tracking (SMART):** A web-based tool used to provide a consent-driven client tracking system for both state agencies and private treatment providers.

**Treatment Service Plan (TSP):** A written document developed jointly with the youth and the parent/guardian/custodian to identify treatment objectives, services, and service linkages that address the needs of the youth and family. It also examines the safety and appropriateness of the youth's placement. Ultimately, it is utilized by DJS to make recommendations to the juvenile court for permanency planning (where appropriate), level of supervision, and services required for each youth at disposition and various stages throughout the youth's DJS involvement.

**Ungovernable:** Defined by the Juvenile Court Statistics as being beyond the control of parents, guardians, or custodians or being disobedient of parental authority (i.e. CINS juveniles who are truants from school, violate curfew laws or run away, are ungovernable).

**Violence Prevention Initiative (VPI):** Implemented in January 2008, the VPI Unit ensures intensified levels of supervision and targeted services for youth at highest risk of being victims/perpetrators of crimes of violence. This Initiative incorporates a level system and continuum of graduated responses to ensure that immediate and appropriate actions are consistently applied when youth are non-compliant.

**Youth:** The preferred term for individuals under 18 years of age as used by DJS.

# An Overview of the Maryland Department of Juvenile Services

Juvenile Courtroom at the Baltimore City  
Juvenile Justice Center

## Introduction to the Maryland Department of Juvenile Services

The Maryland Department of Juvenile Services (DJS) provides individualized care and treatment to youth who have violated the law or who are a danger to themselves or others. DJS uses objective assessment tools specifically developed for Maryland's youth, manages youth with the guidance of the data collected, and works with partners in the community to achieve meaningful improvements to the outcomes of the youth we serve.

### OBJECTIVE ASSESSMENT TOOLS

DJS uses the Detention Risk Assessment Instrument (DRAI) to evaluate whether a youth should be held in secure detention while awaiting a hearing on the merits of an offense charged. This tool helps the Department improve its detention practices by taking subjectivity out of the critical decision of whether to detain a youth so DJS may reach the goal of detaining only those youth who pose a risk to public safety, to themselves, or who would not otherwise appear in court.

If a youth has been adjudicated delinquent, the Department then utilizes the Maryland Comprehensive Assessment and Service Planning Tool (MCASP) to assess the youth's treatment needs and serves as the basis for the treatment service plan development. Using an objective instrument allows the Department to make better matches between youth and the course of treatment available within the continuum of care. The continuum of care consists of both state-operated facilities and privately-operated programs designed to address youth needs, as well as the factors that led the youth to delinquent behavior.

### MISSION OF THE MARYLAND DEPARTMENT OF JUVENILE SERVICES

*The Department of Juvenile Services ensures the safety of the community and the well-being and safety of the youths under DJS care, holds juvenile offenders accountable to victims and communities, and assists youths in developing competency and character to aid them in becoming successful members of society.*

### MANAGING WITH DATA

The information developed from assessment tools as well as information collected by caseworkers, investigators, and facility staff is regularly analyzed by the Research, Evaluation, and Planning Unit. Reports are generated for StateStat, the Annual Statistical Report, and for numerous ad hoc requests. This *Data Resource Guide* represents the most comprehensive report of the Department's data ever. Locally specific information is now readily available to all. This is crucial for practitioners because statewide trends could mask individual local trends that run counter to conventional wisdom. As innovative new ways of examining our information are uncovered, they will be incorporated into this publication.

### COMMUNITY PARTNERSHIPS

DJS's partnerships start in the community at the field offices. In each locality throughout the state, DJS employs staff who work with the courts to provide intake services, supervision of youth, and recommendations to the court on detention as well as placement into care. Field staff work with community-based treatment providers to develop a range of offerings that meet the needs of youth in that community. State partners, such as the Maryland State Department of Education (MSDE), the Department of Human Resources (DHR) and the Department of Health and Mental Hygiene (DHMH) collaborate at many levels to deliver services in the most effective manner. DJS also works closely with the Maryland State Police, local law enforcement, and the Governor's Office of Crime Control and Prevention to ensure public safety.

## Organizational Chart As of JUNE 1, 2011

The Department of Juvenile Services serves the entire state by providing support for community programs and services, community supervision and case management, and custody and care of committed juveniles.

Headquarters, located in Baltimore City, houses the Office of the Secretary and functions as the hub for all support services.

Administered by the Secretary, agency functions are divided among the following:

- The Secretary oversees the Inspector General's Office, the Chief of Staff, and the Deputy Secretaries.
- The Chief of Staff oversees legislative and policy functions, communications, and fair practice/equal employment divisions.
- The Deputy Secretary for Support Services manages support functions including budgeting, capital planning, general services, grants management, human resources, information technology, Juvenile Detention Alternatives Initiative (JDAI) and Disproportionate Minority Contact (DMC) functions, research, evaluation and planning, and training.
- The Deputy Secretary for Operations oversees operations that provide community-based services to youth and families, including community detention, field offices, and Statewide Violence Prevention Initiative (VPI) efforts. She also oversees residential operations, including education and transportation services for committed youth, as well as somatic health, victim, substance abuse, and mental health services.

## Vision Statement

Every child under the Department of Juvenile Services' supervision will become a self-sufficient productive adult.

### The Maryland Model: DJS Goals

Treating Maryland's children in Maryland.

Improving conditions of confinement at all DJS facilities.

Achieving better outcomes for children and families by becoming a data and results-driven Department.

Reducing juvenile homicides and non-fatal shootings by DJS supervised youth.

Aligning organizational development with strategic planning goals.

### Guiding Principles

- Achieve public safety by successfully addressing youth needs.
- Encourage youth success through services closer to home that emphasize youth accountability.
- Promote objective decision-making based on scientific and validated assessment instruments.
- Develop professional staff, best practices, and quality assurance processes essential to youth success.
- Incorporate collaboration and integration with other child-serving agencies in working towards achieving the Department's goals.

### Programs and Services

- Intake, Probation, and Aftercare Services
- Community-Based Programs
- Pre- and Post-Dispositional Detention
- Secure Confinement and Treatment
- Residential Treatment Programs
- Administrative Services

### Customers

- General Public
- Juvenile Offenders and Families
- Victims of Crime

## DJS Operating Expenditures, FY 2011

During the fiscal year ending June 30, 2011, the Department expended a total of \$272.4 Million. The first pie chart reflects the major cost centers for which these funds were expended and the second shows the expenditures by major object group.

Percentages may not add to 100% due to rounding.

## Juvenile Justice in Maryland – A Historical Evolution

### 1830

- Maryland Legislature passes “An Act to Establish a House of Refuge for Juvenile Delinquents” creating for the first time an authority to provide troubled children with homes, education, and job training.

### 1850-1882

- Maryland builds four “reform schools” for young people, governed by private boards and segregated by race and sex.
- House of Refuge opens (1850).

### 1866

- Maryland Industrial School for Girls opens, and is operated under various names, finally as the Montrose School, and closing in 1988.

### 1870

- House of Reformation & Instruction for Colored Children opens. It operates under various names, renamed to the Cheltenham Youth Facility in 1992.

### 1882

- Industrial Home for Colored Girls opens. Merged with Montrose School for Girls in 1962.

### 1910-1918

- House of Refuge (opened in 1850) becomes Maryland School for Boys (1910) and in 1918 became the Maryland Training School for Boys.

### 1922

- State Department of Education operates the training schools.

### 1943

- State Department of Public Welfare, Bureau of Child Welfare, Division of Institutions.

### 1966-1969

- State Department of Juvenile Services becomes the central coordinating agency for juvenile investigation, probation and aftercare services, and for State juvenile, diagnostic, training, detention, and rehabilitation institutions.

### 1967

- State Department of Juvenile Services assumed administrative responsibilities for all State children’s centers and boys’ forestry camps.

### 1968

- Patterson House (Group Home for Girls) opens. It closes in 1992.

### 1969

- Department of Health and Mental Hygiene, organizes the Juvenile Services Administration to administer all schools, youth detention centers, forestry camps, and probation/aftercare programs.

### 1970

- Alfred D. Noyes Children’s Center opens in Montgomery County.

### 1972

- Group Home for Boys opens, becoming the William Donald Schaefer House in 1992.
- Maryland Youth Residence Center opens.

### 1982

- J. DeWeese Carter Center opens.

### 1985

- Maryland Training School for Boys becomes the Charles H. Hickey, Jr. School.

### 1987

- Juvenile Services Administration becomes an independent agency.

### 1989

- The Department of Juvenile Services becomes a cabinet-level department.

## STEPS IN THE JUVENILE JUSTICE SYSTEM

1. Youth can be referred to DJS by law enforcement, schools, and parents. Some police departments run diversion programs, and only those youth who fail out of the program would be referred to DJS.
2. DJS makes an emergency detention decision to determine if a youth requires secure detention until the next court day. This decision is guided by a Detention Risk Assessment Instrument (DRAI).
3. The intake complaint is assessed by an intake officer, who has statutory authority to determine how the case should be handled. The options are:
  - Resolved, when it is determined that furthering the case would be disadvantageous to the interests of the youth and to public safety.
  - Informal adjustment, where the family signs a 90-day agreement to certain conditions without court involvement. This is the main DJS court diversion program.
  - Formally authorize the State's Attorney to petition the juvenile court for a hearing.
4. At the detention hearing, the juvenile court determines if detention is required until the adjudicatory or dispositional hearing. Youth may also be detained directly by the juvenile court in cases where the youth is presented during court hours, either on a new charge, a writ or warrant, or due to a violation or sanction of a supervision order, (probation, community detention, drug court, etc.) In Maryland, all secure detention centers are operated by DJS.
5. Youth who present a lower risk may also be supervised in programs providing alternatives to secure detention. These programs insure that the youth is available to attend the adjudicatory hearing, and must comply with certain restrictions, which include house arrest, electronic monitoring, or day and/or evening reporting centers. Structured shelter is also used for cases where the youth cannot return home after arrest but otherwise represents a lower risk.
6. DJS formally authorizes the State's Attorney to petition the juvenile court. The State's Attorney then reviews the complaint, and may dismiss it, or file a petition to the juvenile court for an adjudicatory hearing.
7. At the adjudicatory hearing, the juvenile court determines the outcome of the petitioned charges, which can be sustained or not sustained.
8. While a youth is awaiting adjudication, disposition and/or supervision or placement, DJS conducts a series of assessments and investigations which will guide the DJS recommendation to the court on how the case should be handled.
9. For cases where the charges are sustained, a dispositional hearing is held to determine if the youth requires supervision by DJS under a probation order, or will be committed to DJS care which usually indicates an out-of-home placement.
10. For youth whose disposition is probation, DJS case managers provide supervision and services while the youth resides at home. Depending on the risk-level of the youth, supervision may be moderate, or may be intensive, including high intensive under the Violence Prevention Initiative (VPI).
11. Youth who are committed to the Department for out-of-home placement often continue to wait in detention "pending placement" for an appropriate placement to become available.
12. Youth who are committed to an out-of-home placement may be placed in a broad variety of programs (state-run or private, secure or non-secure) depending on the risk-level and treatment needs of the youth.
13. DJS has committed diversion programs for youth who might otherwise be placed out-of-home. These evidence-based in-home programs provide services and treatment to the youth and family, including Functional Family Therapy (FFT) and Multisystemic Therapy (MST).
14. Youth returning home from a committed placement are supervised by DJS case managers. This supervision is at various intensity levels, and case managers also assist youth with school re-entry, employment, and other services.

## Leadership Development Institute (LDI)

As part of its efforts to improve staff competency, the Department of Juvenile Services implemented a Leadership Development Institute (LDI) to provide developmental programming to DJS staff. This initiative ensures that DJS has competent, professional staff working to meet the Department's mission, goals, and objectives. In recognition of the essential role of leadership development in building capacity for reform, DJS provides specialized programs to increase the number of its staff prepared to assume leadership roles within the Department.

The Leadership Development Institute of the Maryland Department of Juvenile Services is a leadership preparation and learning program designed to assist individuals with identifying and developing effective skills while influencing others to follow through to achievement of a common goal. The core program curriculum includes leading people, leading change, being results driven, building coalitions, and understanding financial management.

Participants learn the leadership law, leadership qualities, characteristics, and requirements to be a results-oriented leader. Skills learned include: leading teams to excellence; building collaborative relationships and networks; improving critical thinking and creative problem solving; learning effective oral and written communication and active listening; creating impactful presentations; navigating organizational change and its subsequent potential for conflict; learning strengths and weaknesses through 360° and personality-type personal assessment; and creating a leadership development plan for long-term goal-based leadership.

Participants are exposed to an in-depth education that goes beyond frameworks and theories – it prepares them to exercise their enhanced leadership skills. Leadership case studies offer multiple levels of learning, compelling participants to identify relevant issues and to apply practical responses to their own situations.

Each class conducts at least three short-term community service projects that require them to put their lessons and leadership skills into practice. Additionally, they build relationships around goal-oriented assignments, learn from their peers and acquire first-hand experience. This multi-faceted approach enables participants to build valuable skills and professional contacts in the community, and enhance their ability to become effective leaders in juvenile services and the larger community that we serve.

Leadership Development Institute participants in training

The Leadership Development Institute has proven to be an invaluable partner to various organizations throughout the state, providing a unique opportunity for our professionals to develop the skills required for both business and community leadership. For the last several years, the Department's LDI alumnae have continued this service to wounded soldiers and their families, the American Cancer Society, and fifteen other charitable organizations.

The Leadership Development Institute provides a cost-effective method of comprehensively developing future departmental leaders while incorporating a service component that enables us to focus on our internal and external stakeholders. The Department believes that investing in the next generation of multi-faceted leaders is critical to sustaining staff development while advancing proactive services for Maryland's youth and families.

The Leadership Development Institute learning model immerses the Department's leadership participants in a transformational experience that transcends the acquisition of knowledge, skills, and tools; it fosters professional, intellectual, and personal development. The program challenges its participants to shape powerful ideas into decisive action plans, and to think, lead, and manage differently in a changing juvenile services arena.

## Professional Development and Training Unit

The Professional Development and Training Unit (PDTU) is responsible for providing training for over 2,400 employees and affiliates of the Department. The Unit's mission is to provide leadership and strategic direction for training and organizational development, and provide continuous learning opportunities which enhance the knowledge, skills, and abilities of all DJS employees.

Organized as a centralized unit, training is delivered at the DJS Training Academy. In May 2010, the Department renovated two vacant housing units on the grounds of the Charles H. Hickey, Jr. School in Baltimore County into the PDTU classrooms and offices.

The renovation enabled the Department to preserve important historical buildings and sites, protect existing environmental resources and improve local infrastructure. The buildings also include a computer lab and conference room for meeting space. The classrooms are equipped with state-of-the-art equipment such as LCDs, instructors' stations, Smart Boards, and video-conferencing.

On average, PDTU conducts 12 Entrance-Level Training (ELT) sessions per year for newly hired employees to complete within the first year of their employment with the agency. PDTU also conducts two Supervisor Training sessions per year for employees who were promoted to supervisory positions. Supervisor training must be completed within one year of the promotion date. Annual in-service training is conducted in each of the Department's six geographical regions and nine of the residential facilities. Each region and facility have Training Coordinators who coordinate approximately 40 hours of in-service training per week for a total of 3,600 classes on the annual in-service training calendar. PDTU supports DJS' mission by implementing, supporting and facilitating programs for the Operations and Support Services divisions.

DJS employees providing direct care to youth under the Department's supervision are required by the Maryland Police and Correctional Training Commissions (MPCTC) to be certified. In 1966, with the support of many professional law enforcement organizations in the State, the Maryland General Assembly established the Police Training Commission. In 1971, following the lead of the police, correctional organizations encouraged the creation of a Correctional Training Commission. Although they are separate entities under the Department of Public Safety and Correctional Services, both Commissions are served by a single Executive Director and agency staff.

Both Commissions are vested with the authority to set standards of initial selection and training for all governmental law enforcement, correctional, parole and probation, and juvenile services officers in the State of Maryland, and to otherwise upgrade the professionalism of these officers. Maryland was the 23rd state in the Union to adopt some type of legislation to provide training on a statewide basis. It was the sixth state to make compliance with minimum standards mandatory. It was the first state to require correctional standards on a statewide basis. PDTU is responsible to ensure that all DJS employees complete their required annual training to maintain their certifications.

**On-Going In-Service Training:** ELT for Resident Advisors – 203 hours, ELT for Case Management Specialists – 203 hours, ELT for Support Services Staff – 156 hours, Supervisor Training – 63 hours, Annual In-Service for Resident Advisors – 61 hours, Annual In-Service for Youth Transportation Officers – 33.5 hours, Annual In-Service for Recreation Specialists – 29.5 hours, Annual In-Service for Case Management Specialists/ Addictions Counselors/ Community Detention Officers/ Social Workers – 26 hours, Suicide Prevention and Education Instructor Certification – 12 hours, Crisis Prevention and Management Instructor Certification – 56 hours, CPR Instructor Certification – 36 hours, Gang Awareness Instructor Training – 8 hours, and Child Abuse and Neglect Instructor Training – 8 hours.

**Specialized Training/Initiatives:** Computer Training, Behavioral Health, MPCTC Executive Development Institute, and Gender Specific Training.

**Statewide Initiatives:** Violence Prevention Initiative (VPI) Unit, Maryland Comprehensive Assessment and Service Planning (MCASP) is the new DJS case management model.

**Skills Manager Training Database** – MPCTC requires all public safety agencies across the State to maintain all training data in the Skills Manager Training Database. Skills Manager is a robust system for collecting, managing, and reporting of records related to the development of DJS employees for the duration of their career. It monitors personnel training and certifications in many categories including ELT, in-service training, and instructor training. PDTU and Training Coordinators (TC) use Skills Manager to evaluate employees and instructors for compliance with established standards or regulations. The database includes a complete history of courses attended by employees with date, course, credit hours, score, pass/fail, location, instructor, and more. It includes all diplomas, vocational certificates, and college degrees complete with date, institution, majors, and credit hours. PDTU and the training coordinators are able to view or print a comprehensive report on any employee or employees because the database also contains a record of all employment events such as hire dates, promotions, suspensions, leave of absence, transfers, terminations, position, level, classification, and assignment. The database includes a separate archive section for employees who have separated from the agency that can be viewed and printed, or restored to the active section when an employee is re-hired by the agency.

## Flow of FY 2011 Case Referrals

In FY 2011:

- There were a total of 35,793 intakes processed by DJS.
- 44.0% of those intakes involved a formal petition (as opposed to being resolved at intake or juvenile receiving 90-days of pre-court supervision).
- Of the 15,745 petitions, 90.2% resulted in a court disposition and the remaining 9.8% had the petition either denied by the State's Attorney or the petition withdrawn.
- Of the 14,199 court dispositions:
  - 29.3% received probation.
  - 9.6% were committed to the Department.
  - The remaining 61.3% were dismissed/closed, continued, transferred, nolle pros., pending disposition, jurisdiction waived, writ pending, inter-region/state, or other.

Select youth from the William Donald Schaefer House and the Baltimore City Day and Evening Reporting Center engaging in a community clean-up in the McElderry Park neighborhood of Baltimore City as part of DJS' TrashBusters community-service program.

## Introduction to Intake and Community Supervision

The DJS Operations Division - Community Services subdivision provides a continuum of community-based services to youth across multiple stages of the juvenile justice system. The provision of community services begins at DJS intake where DJS intake officers receive complaints from persons or agencies – for example, private citizens, schools, or law enforcement agencies – and assess whether the juvenile court has jurisdiction and whether judicial action is warranted. In addition to screening complaints received at intake, Community Services staff directly supervise youth placed on Informal (or Pre-Court) Adjustment, Community Detention and Electronic Monitoring (CD/EM), Probation, Aftercare, and Violence Prevention Initiative (VPI) program supervision. Case supervision and management consists of a number of tasks which will be described in more detail below.

### Juvenile Intake

DJS intake officers review all delinquent and Child in Need of Supervision (CINS) complaints, citations, referrals for service, and peace order requests. Intake officers are directed to make a determination within 25 days as to whether the juvenile court has jurisdiction, and whether judicial action is in the best interest of the public or the child. DJS intake officers are authorized to either: (a) disapprove a complaint as legally insufficient; (b) resolve the matter at intake; (c) propose an informal adjustment period (also called pre-court supervision); or (d) authorize the filing of a petition by the State's Attorney's Office.

The intake decision-making process may involve an intake interview with the youth, parent and/or guardian, and where applicable, the victim(s). In addition, the intake decision is guided by the Maryland Comprehensive Assessment and Service Planning (MCASP) risk screen. The MCASP risk screen is completed at intake for all alleged offenses except alcohol and tobacco citations and status offenses (e.g., curfew violations and runaway complaints). MCASP risk screen items are used to create a delinquency history score and a social history score. The instrument generates a recommended intake decision based on the intersection of these two scores and the nature of the most serious instant offense – that is, whether it is a felony or misdemeanor. Note that all violent felony offenses are forwarded to the State's Attorney's Office for review.

In addition to assessing the merit of complaints received at intake and making the case forwarding decision, DJS intake officers are responsible for determining whether juveniles who have been taken into custody may be released to a parent, guardian, or other responsible adult and, if so, under what conditions. Some youth are released to a caregiver without any additional restrictions or conditions. Other youth are released to a caregiver and required to participate in a community detention program such as CD/EM. Lastly, some youth are detained or placed in shelter care pending a court hearing which is held no later than the next court date.

Intake officers are directed by statute (Md. Code, Courts and Judicial Proceedings, section 3-8A-15 ) to authorize detention if detention is deemed necessary to protect the youth or others, or if the youth is deemed likely to leave the jurisdiction of the court. Shelter care may

be authorized for the same reasons as detention. Additionally, it can be utilized if a parent, guardian, or custodian is not available to provide supervision and care, and return the child to court.

The decision to authorize detention is guided by a decision-making tool called the Detention Risk Assessment Instrument (DRAI). The DRAI is designed to provide an objective assessment of a youth's risk to the community as well as the probability that the youth will fail to appear for future court dates. The risk assessment was implemented in 2005 and validated in 2006.

Intake services are provided by each DJS region during normal working hours (i.e., 8 a.m. to 5 p.m.). The Baltimore City Region provides 24/7 intake services and houses a statewide call center at the Baltimore City Juvenile Justice Center. The statewide call center handles all emergency intake services during non-traditional work hours and/or days for all regions across the state.

### Community Supervision - Informal Adjustment (or Pre-Court Supervision)

As discussed above, one option for resolving a case received at DJS intake is to handle the case informally without involving the juvenile court through a period of Informal Adjustment for a period of up to 90 days. Pre-Court Supervision is essentially an agreement executed by the DJS intake officer that stipulates conditions of the supervision period. The agreement requires consent by the youth, parent/guardian, and victim (where applicable). Agreements are tailored to the individual circumstances of the case and may include the payment of restitution, the completion of community service hours, as well as participation in specialized counseling or treatment programs, such as substance abuse treatment. In some circumstances, the period of informal supervision may be extended to 180 days to allow for the completion of a treatment program. Note that if a youth fails to meet the conditions of the agreement, the DJS Intake Officer may elect to forward the case to the State's Attorney's Office for review.

### Community Supervision – Community Detention

DJS provides regional community detention and electronic monitoring services (CD/EM) typically for youth whose cases

have been forwarded to the juvenile court at intake and are pending adjudication or disposition. The program operates as an alternative to secure detention, allowing youth to continue participating in community activities such as school or work, and helping maintain community ties and support systems. Note that CD/EM may also be used as a condition of probation or aftercare supervision or as a component of the Violence Prevention Initiative (VPI) to provide intensive community supervision (see Community Supervision – Violence Prevention Initiative).

Community Detention supervision includes face-to-face and telephone contacts as well as random unannounced visits at home, school, and work. The level of supervision depends on the assessed supervision needs of each youth and the court-ordered release conditions. Community Detention officers are trained to detect violations of court-ordered release conditions and report any changes in a youth's home or school situation. Youth who violate the conditions of release may be withdrawn from the program and placed in secure detention.

The electronic monitoring component provides an additional layer of supervision. Compliance is monitored electronically through an ankle bracelet placed on the youth by a Community Detention officer. A transmitting unit is attached to the family phone. A daily report is generated by the central computer and transmitted to an EM coordinator. This information is examined and any violations of the authorized schedule are transmitted for further consideration.

The CD/EM command center is located in Baltimore City. A centrally-operated command center is most efficient given the need for 24/7 staffing.

### **Community Supervision – Probation**

Youth who are adjudicated and found delinquent by the juvenile court may be placed on probation under the supervision of a DJS case management specialist (CMS). Probation is the most frequently used juvenile court disposition. A probation term requires youth to abide by general supervision conditions, as well as any special conditions imposed by the court.

At the start of probation supervision (or in some instances, prior to disposition if ordered by the juvenile court), a Social History Investigation and Report is completed by the assigned CMS. This report describes the social adjustment and circumstances of the youth and their family.

In addition, the CMS completes the MCASP risk and needs assessment that includes components of the MCASP risk screen completed at intake but provides a much broader and more comprehensive assessment of individual need. The MCASP risk and needs assessment categorizes youth as either low, moderate or

high on each of the following criminogenic need domains (i.e., needs related to re-offending risk): (a) School; (b) Use of Free Time; (c) Employment; (d) Community Relationships; (e) Family; (f) Alcohol and Drugs; (g) Mental Health; (h) Attitudes and Aggression; and (i) Neighborhood Safety. (See Appendix H for a list MCASP risk and needs assessment items).

Together the social history and MCASP needs assessment data are used by the CMS to develop recommendations to the juvenile court and to create the Treatment Service Plan (TSP). A TSP is completed for each youth under DJS authority. A TSP includes the recommended supervision level for the youth, specific goals for the youth and family to meet, and a statement of services to be provided to the youth and family. In developing the TSP, input from youth, parents and/or guardians, and service providers (as appropriate) is also solicited.

### **Community Supervision – Aftercare and Re-entry**

Aftercare supervision is similar to probation supervision in that the CMS performs many of the same supervisory tasks and relies on the same tools for decision-making (e.g., the MCASP risk and needs assessment). Aftercare services are provided for youth who have been committed to the custody of DJS for placement outside the home, or occasionally for the receipt of in-home services in some jurisdictions. A CMS is assigned to the case upon commitment, and planning for aftercare starts before the youth is placed in a residential program.

Aftercare case management is comprehensive, beginning with assessments of the youth's progress while in residential placement to the provision of services intended to facilitate community reintegration upon release. Building on the services provided in the residential placement, the CMS is responsible for linking services for the youth and family, monitoring the youth's adjustment back to the community, and ensuring compliance with any court directive. The MCASP risk and needs assessment provides guidance to case managers as they coordinate and plan for services.

A variety of programs are used to assist youth in the re-entry process, including transitional educational services, employment programs – such as, job readiness training, career exploration and vocational training – and continued substance abuse and mental health treatment.

One example of a comprehensive re-entry program is the Continuum of Opportunity Re-entry Program and Services (CORPS) initiative. The U.S. Department of Labor (DOL) awarded DJS funding in 2009 to implement CORPS in Baltimore City. The initiative involves multiple partners (e.g., the Baltimore City Public Schools, the Community College of Baltimore County, and the Baltimore City Mayor's Office on Criminal Justice) and is characterized by intensive case management, educational and employment opportunity career training, mentoring and community service opportunities. DJS is currently working with its partners to identify future sources of funding in order to continue CORPS components.

**Community Supervision - Violence Prevention Initiative**

The Violence Prevention Initiative (VPI) is an intensive supervision program intended to reduce the number of juvenile homicide and non-fatal shootings, both offending and victimization. The VPI program focuses on youth under supervision (either probation or aftercare) who are believed to be at high-risk of either violent offending or violent victimization. The program combines intensive surveillance (e.g., frequent contact with youth during non-traditional hours such as evenings and weekends, electronic monitoring) with enhanced service delivery (e.g., drug treatment, employment training). Youth are sanctioned swiftly upon evidence of non-compliance in order to ensure the earliest possible intervention.

**Interstate Compact on Juveniles (ICJ)**

The ICJ unit provides for the cooperative supervision of probation and aftercare youth moving from state to state and the return of runaways, absconders, and escapees. In 2008, a new compact was enacted forming the Interstate Commission for Juveniles. Maryland and 40 other states are currently members. The ICJ governs each member state as to the provision of proper supervision or return of juveniles, delinquents, and status offenders on probation or aftercare who have absconded, escaped, or runaway and in so doing have endangered their own safety or the safety of others. It is the responsibility of each member state to provide supervision and services to ICJ cases using the same standards that prevail for its own juveniles placed on probation or aftercare supervision.

# Detention

A DJS youth plants a tree on the grounds of the Charles H. Hickey, Jr. School to commemorate Victims' Rights Week 2011.

## Introduction to Detention (Pre-Disposition)

The juvenile court may detain youth on a temporary basis in a physically restricting (or secure) facility pending court disposition. Detention may be ordered if it is determined that the youth presents a threat to themselves or to the community. (See Introduction to Intake and Community Supervision for an overview of detention authorized by intake officers at the point of intake.) Maryland youth are detained in one of eight detention facilities operated by DJS across the State.

### DETENTION ADMISSIONS

Each detention facility operates an admissions area (24 hours a day) where all youth admitted to detention are processed. An admissions officer interviews youth to collect and verify basic identifying information. The admissions officer also performs a search of the DJS information system, ASSIST, to obtain available information on a youth's delinquency and placement history. A photograph of each youth is taken and included in the case record for identification purposes. The rules of the detention facility, including the grievance procedure, are provided to each youth in the facility handbook. Youth are issued clothing to wear in the facility. Personal clothing is catalogued, packaged, and placed in secure storage.

The admissions process includes an initial health screening. It is performed by admissions staff and consists of a review of physical health, mental health, and substance abuse needs. A full medical history and physical examination is conducted by a licensed physician or nurse practitioner within seven days of admission.

### DETENTION CASE MANAGEMENT

Youth who are detained by the juvenile court are assigned a DJS community case manager. The community case manager is based in the local DJS office within the youth's home jurisdiction. To complete a social history investigation, the community case manager visits the youth in detention, interviews the youth and family, completes the Maryland Comprehensive Assessment and Service Planning (MCASP) risk and needs assessment (where applicable, post-adjudication), and provides recommendations to the juvenile court at disposition.

### MENTAL HEALTH AND SUBSTANCE ABUSE SCREENING AND ASSESSMENT

DJS Behavioral Health Services provides mental health screening, assessment, and treatment services at all DJS detention facilities. Services may include suicide prevention, crisis intervention and stabilization, and medical evaluation and monitoring.

Upon admission, each youth is screened by a qualified mental health professional. The screening consists of an interview, the administration of tests as appropriate, and the review of any prior assessments or records (e.g., psychosocial or clinical assessments). If the initial mental health screen reveals symptoms of mental health issues, recommendations regarding the need for further services and/or the

need for a more in-depth assessment are made. In-depth assessments are conducted by psychiatrists or licensed psychologists and provide an examination of emotional functioning, adaptive functioning, and cognitive functioning as well as recommendations for treatment.

Certified addictions counselors screen and assess youth in detention and determine appropriate levels of substance abuse treatment needed by youth. This information assists case managers in linking youth with appropriate community and residential services. Addictions counselors work closely with the Department's medical director for those youth requiring medication management as a result of their drug addiction.

### EDUCATIONAL SERVICES

Educational services are provided to youth in detention on an individual or small-group basis. The educational program approximates the educational services available in the local public school system. All educational programs are accredited by the Maryland State Department of Education (MSDE) and are consistent with Code of Maryland Regulations (COMAR), Title 13A. Educational staff may be employed directly by DJS or employed on a contractual basis with public or private agencies.

Baltimore City Juvenile Justice Center exterior

The provision of educational services begins with an examination of each youth's complete educational history. Educational staff persons request school records as soon as possible. An educational plan is then developed and reviewed periodically to ensure accountability on both the part of the educational program as well as the youth. Special education needs are addressed and instruction takes into account individual learning styles.

### RECREATIONAL ACTIVITIES

A structured recreation program is available to many youth in detention. The recreation program provides a variety of activities promoting physical and mental health. Youth participate in recreational activities for a minimum of one hour per day (two hours per day of recreational activity is encouraged).

## Introduction to Detention - Pending Placement (Post-Disposition)

Youth who have been committed to the custody of the Department for residential placement may be placed in detention on a temporary basis by the juvenile court. Youth detained post-disposition are considered to be pending placement. That is, they are waiting to be admitted or placed in one of many possible out-of-home treatment programs. Some programs are considered to be community-based (for example, foster care, treatment foster care, group homes, or therapeutic group homes). Other programs are non-community based (for example, in-patient substance abuse treatment, DJS-operated Youth Center, or

**Cheltenham Youth Facility offers students a program where they plant seeds indoors and grow them in a mini-greenhouse. Then the seedlings are transplanted into a raised vegetable garden.**

**A youth and teacher engage in one-on-one instruction in a classroom at the Baltimore City Juvenile Justice Center.**

Residential Treatment Center). Some youth may require placement into a secure facility. Secure placement options include the Victor Cullen Center in Maryland or an out-of-state program contracted by DJS.

A review hearing is held in accordance with Md. Code and Judicial Proceedings, 3-8A-15(k) for any youth in detention 25 days after the court has made a disposition. At the hearing, DJS is required to explain the reasons for continued detention. The court will continue to conduct a hearing every 25 days thereafter until a youth has been placed.

Youth who are pending placement receive the same core services as youth detained pre-dispositionally, including educational services, screening, evaluation, and treatment for substance abuse, mental health, and somatic health (including dietary and dental).

Youth receive bi-weekly visits from their community case manager. Each facility also allows family visitation during the week or on weekends (the visitation schedule varies by facility).

During the pending placement period, the community case manager maintains contact with the youth's family and works to identify the most appropriate placement for the youth based on a number of factors, including the youth's social history and the MCASP risk and needs assessment profile. The community case manager is also responsible for reporting to the juvenile court regarding the youth's placement status.

In addition to court review, pending placement cases are reviewed by the Department on a weekly basis at facility management meetings. Regional-level meetings are held on a monthly basis to review placement statistics and identify barriers to placement and ways to expedite the process.

Youth who are waiting to be placed in either a DJS-operated Youth Center or the Victor Cullen Center may participate in the Treatment Oriented Program (TOPS). This program provides youth the opportunity to complete the orientation phase of their prospective program while still in detention. Youth complete workbooks with their residential case managers and participate in video-conferences with the treatment teams. By completing the orientation phase prior to program admission, youth are able to reduce their total length of stay in the committed program.

**A Note to Readers:**  
*It is strongly recommended that readers review the following distinction as it will assist in understanding data presented in this section:*

**Placements versus Admissions:** A placement is based on a decision made by an intake officer or judge to place a youth into detention. An admission occurs when a youth physically enters a facility either through direct placement or through transfer. Therefore, during one placement, a youth may have several admissions and these counts will not match.

## Statewide Activity for Detention Centers

Total Capacity: 470 beds

The Maryland Department of Juvenile Services owns and operates eight detention facilities across the state. They are: Alfred D. Noyes Children's Center, Baltimore City Juvenile Justice Center, Charles H. Hickey, Jr. School, Cheltenham Youth Facility, J. DeWeese Carter Center, Lower Eastern Shore Children's Center, Thomas J.S. Waxter Children's Center, and Western Maryland Children's Center. Each facility houses a population of juveniles awaiting disposition (pre-D) and also houses juveniles who are post-disposition awaiting placement in a committed program.

## Alternatives to Detention (ATD)

DJS has a variety of programs designed to safely supervise youth in the community as an alternative to secure detention pending adjudication. These programs include Community Detention (CD) - with the possibility of electronic or GPS monitoring (EM), Day and Evening Reporting Centers, the Pre-Adjudication Coordination and Transition Center (PACT), and structured shelter care. These programs are used either by DJS intake staff for lower risk youth presented for detention (these placements must be reviewed by the juvenile court the next court day) or by the juvenile court directly. These alternatives allow youth to continue with school or work and maintain their community ties, support systems, or alternative care. In addition, youth are closely supervised and are held accountable for returning to court as required.

# Committed Programs

Russell Metz, an environmental science teacher at Green Ridge Youth Center in Western Maryland, works with a DJS youth to construct an acorn shack where acorns will be cared for and stored during the winter months. The acorns will later be planted when spring arrives to help perpetuate the Oak Tree population.

## Introduction to Committed Programs

The DJS Division of Operations is responsible for all youth who have been committed to the custody of DJS by the juvenile court. A continuum of out-of-home placement options has been developed for these youth, ranging from placement in a foster care setting to placement in a secure confinement facility. The full range of DJS placement options includes: (a) Foster Care Homes (traditional and treatment foster care); (b) Group Homes (general service, therapeutic and high intensity); (c) Independent Living Programs; (d) Residential Treatment Centers (RTCs); (e) Intermediate Care Centers for Addictions (ICFAs); (f) DJS-operated Youth Centers; and (g) Secure Confinement Facilities (both DJS-operated and privately contracted).

### PLACEMENT PROCESS

DJS developed a placement process whereby youth committed to the custody of the Department are evaluated and recommendations for the most appropriate treatment program and services are made. The placement process begins with a staffing meeting bringing together key staff members responsible for resource and service planning – specifically, the youth’s Case Manager, Case Manager Supervisor, and Resource Coordinator. Parent and/or guardians are invited to participate in the meeting as well. At the staffing, all pertinent information about a youth’s case is considered including the current offense, delinquency history, social history, MCASP risk and needs assessment scores/categorizations, educational records, clinical assessments, as well as the involvement of any other state agency.

The staffing meeting culminates with recommendations for program participation and/or services tailored to the circumstances of each youth. DJS then refers the youth’s case to

the recommended programs for consideration. Programs may either accept or reject the youth based on program eligibility criteria and capacity. Once a youth is accepted, services must be authorized by DJS prior to placement.

DJS operates seven facilities in Maryland (see Table), and also contracts with private in-state as well as out-of-state vendors to provide services to committed youth.

A Certificate of Placement (COP) database was developed to manage the referral and placement of youth with private providers. This database facilitates the placement process, for example, by automatically pulling staffing information from the DJS information system (ASSIST), creating program referral letters, and tracking acceptances and rejections from potential programs.

### EDUCATIONAL SERVICES

DJS provides educational services to youth while in placement. The DJS school curriculum is based on the Maryland State Core Learning Goals. The curriculum includes instruction in reading, English/language arts, social studies, mathematics, science, and life skills. All teachers are certified by the Maryland State Department of Education. In addition to academic achievement, the curriculum incorporates career and technology skills.

DJS’ Educational Services Unit seeks to collaborate with local school systems. The goal of the unit is to allow youth to earn course credit for their educational accomplishments while in placement and to facilitate the seamless transition back to the local public schools, thereby maximizing the probability that youth will obtain a high school diploma or GED. Eligible youth participate in mandated assessments.

ASSIST is a live database; therefore updates made subsequent to this data being run will not be included. Percentages may not add to 100% due to rounding.

Instruction is individualized following careful review of records received from local school systems. Required services are provided to special education youth per their Individualized Education Programs (IEP).

## BEHAVIORAL HEALTH SERVICES

**Mental Health Services in Facilities:** DJS Behavioral Health Services provides mental health screening, assessment and treatment services at all departmental detention and long-term treatment facilities. Services include: suicide prevention; crisis intervention and stabilization; medication evaluation and monitoring; and individual, group, and family treatment. As members of the facility team, mental health staff and contractors provide support, technical assistance, and education services to the other members of the team on topics related to mental health problems and medication. In the detention facilities, psychiatrists, social workers, and psychologists provide evaluations in order to assist the case management staff in identifying appropriate residential placements or community-based services. These decisions are based on the needs of the youth with public safety in mind.

**Mental Health Services in the Community:** DJS Behavioral Health Services has licensed social workers as members of the regional resource staff. The role of the social workers is to provide psychosocial assessments and provide a link with the local mental health Core Service Agencies (the local mental health authority) to ensure that appropriate community services are available to DJS youth on probation and aftercare. These social workers also provide technical support during staffings for youth with mental health needs to help identify appropriate residential placements. All treatment services are provided through the local community agencies.

**Substance Abuse Services in Facilities:** DJS Behavioral Health Services provides screening, assessment, and treatment services to youth with substance abuse problems. Certified addiction counselors screen and assess youth in detention and determine appropriate levels of substance abuse treatment needed by youth which assists case managers in linking youth with appropriate community and residential services. Counselors work closely with the Department's medical director for those youth requiring medication management as a result of their drug addiction. Several DJS long-term facilities are certified as drug and alcohol treatment facilities:

- William Donald Schaefer House is certified as a long-term residential substance abuse treatment facility.
- Meadow Mountain Youth Center is certified to provide intensive out-patient level of care to youth who are committed to DJS.

Youth receiving medical care from the nurse at William Donald Schaefer House

- Green Ridge and Backbone Youth Centers provide early intervention education, out-patient, and intensive out-patient levels of care.
- Savage Mountain Youth Center provides early intervention and out-patient levels of care.

While Victor Cullen Center is not yet certified to provide substance abuse services, certified addiction counselors provide early intervention, out-patient and intensive out-patient level of care.

**Substance Abuse Services in the Community:** The majority of substance abuse services received by youth on probation and aftercare are provided by local community providers. DJS provides linkages to these services through Drug Court and regular probation services. DJS Behavioral Health does provide funding for some of these services, however, the majority of funding comes through the Department of Health and Mental Hygiene (DHMH)/Maryland Alcohol and Drug Abuse Administration (ADAA).

In Baltimore County, DJS Behavioral Health does provide substance abuse assessment services at several local offices that assist case managers and the Resource staff in identifying appropriate community and residential services for youth with substance abuse and addiction problems.

**Behavioral Health and Victim Services:** The Director of Behavioral Health and Victim Services has responsibility for establishing and implementing policies governing the delivery of mental health, substance abuse, evidenced-based and victim services, and for hiring licensed and certified staff and contractors. In addition, the Director is responsible for working with other state agencies, including the Department of Health and Mental Hygiene and the Governor's Office for Children, to ensure that DJS youth have access

to services governed by and/or funded by these agencies. Finally, the Department's headquarters staff provide technical assistance as well as direct intervention to resolve interagency issues for the benefit of DJS youth.

The Department offers assistance, support, and information to all victims of juvenile crime. DJS understands that the judicial process can seem overwhelming and complicated. The Department helps victims proceed through the judicial system by providing an understanding of the juvenile court system, assuring that victims are informed and aware of the rights afforded them under Maryland law, and advocating for their rights. DJS provides assistance with the preparation of victim impact statements and the enforcement of court orders for restitution via the restitution collection process. The Department also informs victims on how to initiate civil action on delinquent restitution accounts.

In addition, referral to appropriate services is available for all victims of juvenile crime who request assistance. The services may include, but are not limited to referral for crisis intervention, emergency services, and information on case status and outcomes.

The Department of Juvenile Services is committed to ensuring that all victims of juvenile crime are treated with dignity, respect, and sensitivity throughout the juvenile justice process.

## **SOMATIC HEALTH**

The Division of Somatic Health Services provides comprehensive, quality health care and nutritional services to youth residing at DJS residential facilities. It is the mission of Somatic Health Services to protect, promote, and advance the health of all youth in the care of the Department. Medical, dental, and dietary services are provided in an inter-disciplinary fashion that is developmentally appropriate for youth, and are delivered in accordance with standards set forth by the National Commission on Correctional Health Care, the American Academy of Pediatrics, The Centers for Disease Control, and the Food and Nutrition Board of the National Academy of Science.

Youth admitted to DJS residential facilities require on-going, routine preventative health care similar to other children their age. In addition, they may have unmet or chronic health care needs upon admission, or may develop an acute health condition that needs to be addressed. DJS ensures that each program has licensed nurses, physicians, dietitians, dental providers, and laboratory and pharmacy services to meet the health care needs of the youth. For specialty, surgical, emergency, or in-patient care that may be required, youth are transported to community providers as needed.

Each youth must have a current nursing assessment, history and physical examination, vision screening, and dental examination upon or soon after admission, as well as screening for tuberculosis,

anemia, and sexually transmitted infections. Girls are provided comprehensive gynecological care either on-site or in the community in order to meet their individual needs. Vaccine records are requested on all youth, and DJS makes every effort to fully immunize youth who are not up to date on recommended and required vaccinations. Youth are seen at regularly scheduled clinic times and as needed for "sick call" requests. In addition, they are seen at least monthly by nursing staff to check on their overall health status and weight.

In order to prepare youth for success upon re-entry into the community, nurses and other DJS staff provide youth with individual and/or group health education and coordinate discharge planning to ensure that youth have their medications or required follow-up medical appointments with community providers.

## **DJS YOUTH CENTERS - VOCATIONAL PROGRAMS**

Youth Centers' vocational programming operates under the general philosophy that work provides dignity and to obtain meaningful work, one must have a high school diploma. Consequently, all students are given the opportunity to participate in all aspects of this program. Furthermore, students must enter the job market not only with a general and specific set of hard skills; but also with the general and specific academic, emotional, and relational skills necessary to succeed in today's fast-paced, demand driven, ever changing work environment. They need to demonstrate flexibility, confidence, and the resiliency to be re-trained for each new job coming into the company. Therefore, all students participate in one of many vocational programs in addition to the academic program; mental health and substance abuse counseling; transition planning and follow up in the community.

**Meadow Mountain Youth Center students constructing new raised beds for their vegetable garden.**

**Meadow Mountain Youth Center students participating in the Aquaculture & Environmental Science Center Program.**

While specific programmatic opportunities differ, all Youth Centers offer educational programming to earn a Maryland High School GED/diploma and vocational programming that includes traditional building trades as well as preparation for green employment opportunities and niche positions in the burgeoning aquaculture industry in Maryland. In partnership with the Maryland Zoo, the National Aquarium, the University of Maryland Center for Environmental Studies at Horne Point, the University of Maryland Marine Biotechnology Sea Grant, and the Department of Natural Resources Fisheries, the Youth Centers developed an Aquaculture Technician Certificate outlining the competencies needed to walk onto the job with the skill set necessary to begin work. The certificate is recognized by the Department of Labor, Licensing and Regulation (DLLR). In addition, Youth Centers work with Maryland's One-Stop Centers, operated through the Maryland Workforce Council and Workforce Investment Boards, to help secure employment and other services for these youthful offenders prior to transition.

For many employees, the number one reason for termination is an inability to get along with peers. Therefore, in order to develop a positive mutual support program, each Youth Center uses the Equipping Youth to Help One Another Program (EQUIP) as an underlying framework. The EQUIP Program is a three-part intervention method for working with anti-social or behavior-disordered adolescents. The approach includes training in moral judgment, anger management/correction of thinking errors, and pro-social skills. Youth involved in the EQUIP training program participate in two types of group sessions: Equipment Meetings in which the leader teaches specific skills, and Mutual Help Meetings in which the leader coaches students as they use the skills they have learned to help each other.

Each Youth Center, however, offers unique vocational programming. For example, Green Ridge Youth Center and

Backbone Mountain Youth Center offer a sixty hour carpentry program and a thirty hour archaeology technician program; Savage Mountain Youth Center offers a sixty hour automotive technician program; and Meadow Mountain Youth Center offers a sixty hour aquaculture technician program. In addition, unique to Backbone Mountain Youth Center, there is a program for students to be dually enrolled in high school and Garrett College of Maryland, recognizing that for some, college is a legitimate pathway to work. Except for the Backbone Mountain Youth Center's college program, each Youth Center's programming is available to every student in that specific Center's care. At the conclusion of every program, the students earn certificates demonstrating their successful completion of the program competencies.

**Service Certificates:** The Youth Centers provide project-based opportunities for students to develop character while, at the same time, performing much needed services in the community. As a result, Youth Center students are a welcome part of our local communities. Eighty percent of the Youth Centers' students participate in one of the following service programs.

- AmeriCorps: students complete 450 hours of service and in exchange receive a \$1,200 education stipend to be used at an institution of higher learning.
- Maryland Conservation Corps: students complete 300 hours of service and in exchange receive a \$1,000 education stipend to be used at an institution of higher learning.
- Conservation Job Corps (previously Civic Justice Corps): The Maryland Civic Justice Corps (CJC) is a six-week, 180 hour capstone program for adjudicated youth operated by the DJS' Youth Centers and the Department of Natural Resources (DNR). The CJC is defined by four Essential Pillars which identify positive outcomes for youth and for Maryland's natural and cultural resources. Although presently the Youth Centers do not receive compensation for this work, DLLR and DNR's CJC have agreed to fund this program thereby providing minimum wage for the capstone program. Students will use this income to take care of their monetary restitution.

**Vocational Certificates:** The Youth Centers offer a wide variety of certificates that demonstrate competency. The following certificates are offered: EQUIP, Carpentry, Automotive, Aquaculture Technician I, Horticulture Technician I, and/or Archaeology Technician I.

The Youth Centers' vocational program is two-fold. First, and most importantly, a student must earn a Maryland High School Diploma in order to be minimally competitive in this changing marketplace. Second, all students will have opportunities to participate in multiple community projects in order to put into practice the skills learned in the classroom. And finally, from education to counseling through vocational programs, all students in our care have multiple opportunities to build character along with the hard skills necessary to become a productive person in his community of choice.

## CLASSIFICATION

All DJS-operated facilities utilize an objective internal classification system to assess a youth's potential vulnerability and supervision needs. The results of the classification assessment are used to guide appropriate housing decisions and room assignments. The classification assessment is implemented for all youth upon admission to the facility, and allows for reclassification in response to circumstances or special needs that may require modification of housing or room assignment.

The internal classification assessment considers the following factors when making housing and room assignments: (a) the severity of the current charge or adjudication; (b) the severity of the most serious prior adjudication; (c) the number of prior serious incidents in custody (youth-on-youth or youth-on-staff assaults, group disturbances, restraints and escapes or attempted escapes); (d) age, size and offense history of youth, especially when assigning two or more youth to a room; and (e) special needs including suicide risk, mental health, or other concerns that may merit higher or special supervision.

### A Note to Readers:

*It is strongly recommended that readers review the following distinction as it will assist in understanding data presented in this section:*

**Placements versus Admissions:** A placement is based on a decision made by the Department or a judge to place a youth into a committed program. An admission occurs when a youth physically enters a facility either through direct placement or through transfer. Therefore, during one placement, a youth may have several admissions and these counts will not match.

## DJS State-Operated Committed Programs by Region

ASSIST is a live database; therefore updates made subsequent to this data being run will not be included. Percentages may not add to 100% due to rounding.

## Statewide

At disposition, the juvenile court may commit a youth to the care of DJS. Legal custody of the youth is thereby transferred to the Department. A range of out-of-home program options (or placements) have been developed for committed youth. Community-based program options include placement in a Foster Home, Group Home, or Independent Living Program. Placements in non-community settings include Intermediate Care Facilities for Addictions (ICFA), Residential Treatment Centers (RTC), DJS-operated Youth Centers, and secure confinement facilities. DJS operates seven facilities in Maryland and contracts with others both in-state and out-of-state.

*Note: Though Evidence Based Services (EBS) are presented within this section (pages 146-147), EBS data is not included on the statewide tables as EBS is not solely for committed youth. Data on the statewide pages only includes youth in committed placements.*

### COMMITTED PLACEMENTS, FY 2009-2011\*

\* FY 2009 and FY 2010 data includes the Cheltenham Redirect Program which ended in April 2010.

- **Trends for Committed Placements:**
  - Committed placements decreased 7.5% between FY 2009 and FY 2011 and decreased 5.5% between FY 2010 and FY 2011.
- **Juveniles Placed (FY 2011):**
  - Most likely to be black, 17 years old, and male.
  - 26.3% were from the Metro Region, 25.9% were from Baltimore City, and 14.5% were from the Southern Region.
- **Offense Category (FY 2011):**
  - The most common offense type for juveniles placed in FY 2011 was Second Degree Assault (18.5%).
- **Offense Severity (FY 2011):**
  - The two most common types of offenses were Person-to-Person Misdemeanor offenses (23.1%) and Property Misdemeanor offenses (21.3%).
  - *Note: See the Terms and Concepts section for an explanation of felony and misdemeanor as the definitions are helpful when examining offense severity.*
- **Average Length of Stay:**
  - The average LOS for all committed placements was 203 days.
- **Average Daily Population:**
  - ADP for all committed placements in FY 2011 was 918.
- **Completion Status:**
  - 51.6% of releases in FY 2011 were considered successful.
  - 18.8% of FY 2011 releases were considered unsuccessful.
  - 18.2% of releases in FY 2011 were transferred to another program.

## Foster Care

Regular Family Foster Care (FC) is continuous 24-hour care and supportive services provided to a youth in a DJS-approved family home. The foster family serves low-risk youth who cannot be managed in their own homes. Youth served may be experiencing behavioral problems and need a respite from family/neighborhood issues. Foster Care also serves youth who need long-term placement, primarily because homes may not be appropriate for them to return. Treatment Foster Care (TFC) is continuous 24-hour care and intensive support services operated by a licensed child placement agency or local Department of Social Services in a family setting for children with serious emotional, behavioral, medical, and/or psychological conditions. The behaviors of the youth served are not so severe that removal from the community is necessary.

## Group Homes (General and Therapeutic)

**General Group Home:** A residential program licensed by DHR, DJS, or MHA/DHMH to provide out-of-home care for four or more youth, who are moderate-to-high-risk, and need more structure and supervision than a relative, foster parent, or treatment foster parent could offer that provides a formal program of basic care, social work, and health care services.

**Therapeutic Group Home (TGH):** A residential program for youth in out-of-home care that is licensed by MHA and must be a non-profit organization. TGH provides access to a range of diagnostic and therapeutic mental health services to youth who are moderate-to-high-risk and are emotionally or developmentally disabled.

## Independent Living Programs

Independent living programs are implemented by a child placement agency licensed by the Department of Human Resources (DHR) for youth ages 15 to 21 who need to become self-sufficient and learn responsible living as they are unlikely to return home. The youth reside in either group homes or supervised apartment units, and must enroll in high school, college, vocational training, or be gainfully employed. Services may include assisting youth to graduate from high school or complete vocational/job training; connecting youth to resources for somatic and mental health services; teaching interpersonal skills; money management; job readiness; conflict management; positive leisure opportunities and communication skills.

## Intermediate Care Facilities for Addictions (ICFAs)

ICFA is the most intensive level for residential substance abuse services providing drug and alcohol abuse assessment, treatment, and/or education for moderate-to-high-risk youth. Youth served may have problems in other regions of their lives, i.e., mental health, school, family, peer group, and community. These programs are intense, closed programs able to serve not only substance abusing youth, but also dually diagnosed youth, that is, youth who have both a psychiatric diagnosis for mental health and assessed substance abuse problem. These programs are intended to stabilize the youth, initiate drug treatment and/or counseling services, and develop recommendations for services upon discharge.

## Resident Treatment Centers (RTCs)

RTCs provide the highest level of care for moderate-to-high-risk youth with a psychiatric DSM-IV Axis I diagnosis for serious emotional disturbance (SED). Services generally include: group and individual counseling, close supervision, 24-hour crisis intervention, restraint capability, contained educational programs, and medication management. RTCs are required to have psychiatrists, psychologists, and psychiatric nurses on staff to lead treatment. The RTCs are intended to stabilize the youth's emotional condition, provide services that increase the youth's ability to manage their mental health illness as a potentially life long challenge, develop social skills for coping with both daily and difficult situations, interpersonal relationships, and to transition the youth to a less restrictive environment or home.

## Out-of-State (OOS) Programs

DJS' policy states that youth may not be placed out-of-state without the approval of the Secretary or designee. The Department adheres to Interstate Compact requirements and agreements with other states regarding request for permission and notification when youth are placed in another state. Maryland Law includes specific criteria for out-of-state placement including the condition that a youth's individualized needs cannot be met through in-state resources. Youth placed in out-of-state facilities are visited by DJS staff at least quarterly, and parents/guardians are provided with opportunities to visit youth at least once per quarter. *Note: Although MD law specifies numerous OOS program types (i.e. group homes, RTCs, hospitals, etc...) data will be presented on this page only for programs not already captured on a previous page in the Data Resource Guide.*

## Backbone Mountain Youth Center (State-Operated)

Superintendent: Martin Sharpless  
 Rated Capacity: 48 Males

**Staff Secure - Western Region**

Rte 1, 124 Camp 4 Road  
 Swanton, MD 21562  
 301-359-9190

In 1964, the General Assembly appropriated funds to establish a thirty-five bed forestry camp on Backbone Mountain in Garrett County (Chapter 159, Acts of 1964). The Camp opened in May 1966. It was renamed Backbone Mountain Youth Center in 1977. The Center is located on Backbone Mountain in Garrett County, Maryland. The Backbone Mountain School is housed at the Center and provides regular classroom instruction, GED preparation, and a carpentry vocational program. Backbone Mountain is home to the Backbone Mountain College Program based on Temple University's Inside/Out Program. Some students are admitted to the program for one college semester while in the Department's care. Each student will earn his Maryland High School Diploma as well as earn six to fifteen credits as a college freshman at Garrett Community College. The vocational component is a carpentry program where students earn a 60-hour certificate listing the building and trades competencies learned while in the Department's care.

Green Ridge Youth Center opened in May, 1955 as Green Ridge Forestry Camp for Boys in Allegany County. Originally, the Forestry Camp was run by the State Department of Public Welfare in cooperation with the State Department of Forests and Parks. However, in 1977, the Camp was renamed Green Ridge Youth Center and came under the supervision of the Department of Juvenile Services. The Green Ridge School is housed at the Center and provides regular classroom instruction, GED preparation, and a carpentry vocational program. In the carpentry program, students earn a 60-hour certificate listing the building and trades competencies learned while in the Department's care. Green Ridge earned Performance-based Standards (PbS) recognition in 2010. PbS for Youth Correction and Detention Facilities is a system for agencies and facilities to identify, monitor and improve conditions and treatment services provided to committed youths using national standards and outcome measures.

Meadow Mountain Youth Center opened as Meadow Mountain Forestry Camp for Boys in June, 1958 (Chapter 454, Acts of 1957). The Camp reopened as Meadow Mountain Youth Center in October, 1984. The Center is unique among the Youth Centers because it offers an intensive out-patient program providing youth with at least 9-12 hours of drug treatment weekly. In addition, Meadow Mountain houses the Reflections Program which includes a high and low ropes challenge course, an aquatic challenge, and different outdoor activities (i.e., hiking, biking, and rock climbing). The Center is located next to New Germany State Park in Garrett County, Maryland. The Meadow Mountain School is housed at the Center and provides regular classroom instruction, GED preparation, and an aquaculture/science vocational program. In the aquaculture program, students earn a 60-hour certificate listing the competencies needed to become an Aquaculture Technician.

The success of the first forestry camp for boys at Green Ridge prompted the General Assembly to appropriate funds for additional facilities in 1956 (Chapter 98, Acts of 1956). Lonaconing Forestry Camp for Boys opened in December, 1957, and charged with the rehabilitation of adjudicated males 14-18 years of age. The Camp was renamed Savage Mountain Youth Center in 1977. In December 1999, the Center closed but it was reopened in April 2001. The Savage Mountain School is housed at the Center and provides regular classroom instruction, GED preparation, and an automotive vocational program. In the automotive program, students earn a 60-hour certificate listing the automotive competencies learned.

## Victor Cullen Center (State-Operated)

Superintendent: Edward King  
 Rated Capacity: 48 Males

**Hardware Secure - Western Region**

6000 Cullen Drive  
 Sabillasville, MD 21780  
 301-739-8122

In July 2007, the Victor Cullen Center reopened under state administration as a regional committed treatment center. The Victor Cullen Center is a secure commitment facility for delinquent males located in northwest Frederick County. As a regional center, it has the capacity to care for males between the ages of 15 and 18 in a six- to nine-month treatment program for mental health issues and substance abuse. VCC was originally a sanatorium for tuberculosis patients and was named after the physician in charge of the institution, Dr. Victor F. Cullen. Presently, the Department oversees the treatment and residential programs while the Maryland State Board of Education oversees the education program.

## William Donald Schaefer House (State-Operated)

Superintendent: Martin Callum  
 Rated Capacity: 19 Males

**Group Home - Baltimore City Region**

907-909 Druid Park Lake Drive  
 Baltimore, MD 21217  
 410-230-3189

Opened in 1992, William Donald Schaefer House is situated across from the reservoir in Baltimore City's Druid Hill Park. It provides services to males ages 14-18 and is accredited by the Alcohol and Drug Abuse Administration. Residents are referred by counselors for substance addiction treatment in a small, nurturing environment. Youth receive intensive individualized and group counseling daily, attend alcohol and drug education classes twice a week, and health education classes by the program's registered nurse. Residents attend school five days per week, five hours per day in an on-site classroom and a classroom located in a building adjacent to Schaefer House. Youth either earn credits that are accepted by their home schools upon release or prepare for the GED exam. More than 93% of residents who take the exam, secure their GEDs. Residents participate in community service projects and utilize the State Job Bank to find jobs available upon their release. Once a youth has completed residential treatment, he graduates to an intensive community aftercare program to maintain the support network necessary for a drug and alcohol free life.

## Evidence-Based Services (EBS) Committed, Probation, & Pre-Court

DJS identifies EBS as being the Blueprints Model Programs selected by the Center for the Study and Prevention of Violence (CSPV), a research program of the Institute of Behavioral Science at the University of Colorado at Boulder. Blueprints Model Programs have evidence of a deterrent effect on violence (including childhood aggression and conduct disorder), delinquency, and/or drug use; demonstrate that program effects can be sustained one-year post treatment without evidence that effects have been lost; have been replicated; exhibit success in diverse settings and populations; and meet other CSPV criteria. DJS currently funds: Functional Family Therapy (FFT), Multisystemic Therapy (MST), and Multidimensional Treatment Foster Care (MTFC). The FFT and MST programs are primarily alternatives to group homes. The MTFC programs serve as alternatives to residential group-care programs.

# Recidivism Rates

A young woman wearing a patterned hoodie and a dark cap is standing on the left side of a wooden fence. She is reaching out with her right hand to feed a horse. The horse's head is leaning over the fence, and it is eating from her hand. The background is a large, open field with a white fence in the distance. The entire image has a reddish-pink tint.

Juveniles in the committed program of the Thomas J.S. Waxter Children's Center had the opportunity to learn about and interact with several retired racehorses at Second Chances Horse Farm in Sykesville. The farm is run by the Maryland Department of Public Safety and Correctional Services and provides a safe haven for Thoroughbred racehorses who are past their racing prime. The young women had the opportunity to see the horses in action and were able to pet and feed them.

## Measuring Recidivism Rates

As part of its comprehensive strategy to handle serious offenders while reducing recidivism rates, the Department of Juvenile Services (DJS) has expanded and improved its recidivism research. A primary goal of the Department's recidivism studies is to assist the Department and the legislature in the assessment of program effectiveness and resource allocation.

Although recidivism rates are essential performance measurements, these data are merely indicators of a program's effectiveness. Such indicators are impacted by aftercare and other community-based programs, as well as by numerous risk factors often beyond the Department's control such as the characteristics of each youth's community, local economic opportunities, as well as intractable family problems. Other indicators of each program's ability to serve the designated population are evaluations of the youth's educational achievements, skills development, counseling progress, and improved decision-making. These indicators are continuously evaluated through site inspections, ongoing monitoring activities, incident reporting requirements, regular reviews, as well as youth grievances and complaints.

Acknowledging that recidivism is only one potential indicator of each program's impact on serious juvenile offenders, the Department's recidivism studies analyze recidivism rates and their implications for the juvenile justice system, its major programs, and youth in the Department's custody. These reports reflect the Department's commitment to a balanced approach that ensures juvenile offender's accountability and, similarly, increases programmatic accountability. The Department believes that incorporating recidivism data into its evaluations is integral for program development and juvenile justice enhancements. Given the combination of resource limitations, complex caseloads, and public safety risks, it is crucial that every Department program be designed not only to prevent future offenses, but also to reduce the need for subsequent confinement in either juvenile or criminal justice facilities.

### RECIDIVISM REPORTS HISTORY

In the past fifteen years, DJS has greatly expanded and improved its recidivism research. The Maryland General Assembly's 1996 Joint Chairmen's Report (JCR) guided the Department to develop and use indicators to measure the success of existing juvenile residential programs, to evaluate new programs using these measures and to identify the most efficient and cost-effective programs. The Department, in response to the 1996 JCR, prepared the following recidivism and evaluation reports:

1. *Juvenile Justice and Recidivism Prevention* (August 15, 1996) - detailed the history of the Department's recidivism definitions and data use; outlined plans for measuring recidivism rates at six major residential programs; provided preliminary recidivism rate estimates; and explained long-term plans for a comprehensive system-wide study tracking all youths born in 1977 as they are processed in the juvenile justice system.
2. *Maryland Department of Juvenile Justice Recidivism Analyses: A Program-by-Program Review of Recidivism Measures at Major Residential Facilities for Department of Juvenile Justice Youths* (January 1, 1997) - studied 947 youths released from six major residential programs during FY1994; examined recidivism rates and cost effectiveness indicators for each of these six major programs; and found that although most youths had subsequent contact with the juvenile/criminal justice systems, the majority (54%) were not again committed to the DJS' custody or incarcerated as adults.
3. *Maryland Department of Juvenile Justice Recidivism Analyses: A Program by Program Review of Recidivism Measures at Major Residential Facilities Releasing Department of Juvenile Justice Youths in 1995* (July 1, 1997) - studied 1,334 youths released from seven major residential programs in calendar year 1995; examined recidivism rates and cost effectiveness indicators for each of these seven major programs; and identified a reduction in the combined recommitment and/or incarceration recidivism rate.
4. *A Review of Recidivism Rates Among All Juvenile Justice Youths Born in 1977* (February 2, 1998) - examined 20,053 youths as they were processed through the juvenile justice system, i.e., from intake to probation, to detention, to committed residential programs; found that 56% of youths never returned to the juvenile justice system after their first intake counseling session, and only 8% of the total 20,053 youths were committed for placement in residential programs. The rereferral, readjudication and recommitment juvenile recidivism rates for this first commitment group were 43%, 23%, and 15%, respectively.
5. *Recidivism Rates for Youths Released in Fiscal Year 1995 by Major Programs for one, two, and three years after release* (February 9, 1999) - studied 1,270 youths released from nine major residential programs in fiscal year 1995; examined recidivism rates and cost effectiveness indicators for each of these nine major programs; and identified a reduction in the combined recommitment and/or incarceration recidivism rate.
6. *Recidivism Rates for Youths Released in Fiscal Year 1997 by Major Programs for one, two, and three years after release* (February 2000) - studied 1,735 youths released from major residential programs in fiscal year 1997; examined their recidivism rates and population characteristics and the most serious adjudicated offenses.
7. *Recidivism Rates for Youths Released from Secure and Non-residential Programs in FY 2001 and 2002* (within one and two years after release for the FY 2001 cohort and within one year after release for the FY 2002 cohort). The results of this study are provided on Page 4 of the Department's Managing for Results (MFR) submitted in August 2003.

8. *Recidivism Rates for Youths Released from residential commitment programs by program type:* Recidivism rates within one, two, and three years after release are tracked from FY 2003 for all committed released youths by program type such as group homes, therapeutic group homes, foster care, treatment foster care, residential treatment centers, substance abuse programs, psychiatric hospital, alternative living units, independent living units, and secure programs by impact, intermediate and enhanced levels and state operated programs: Waxter Nurturing Impact Accountability (NIA), Waxter Secure, and Youth Centers.

### RECIDIVISM DEFINITION

The juvenile justice community has not reached a consensus on how best to define recidivism with one measure. Therefore, consistent with other studies, DJS focuses on several measures, including subsequent juvenile and/or criminal involvement of youths released from DJS' commitment programs. The majority of youth released from DJS' major residential programs are 17 years old. Therefore, it is important to track these youth in the adult system and report the recidivism rates both in the juvenile and adult systems. For purposes of recidivism studies, all offenses including VOP and traffic are included. The Department prepares the following nine recidivism measures in three categories.

#### A. Juvenile Justice Recidivism

1. Rereferral refers to any subsequent contact that a juvenile has with DJS intake staff because of a new referral or alleged charge. Therefore, by definition, a re-referred juvenile has had at least two contacts with DJS.
2. Readjudication refers to any juvenile who is re-referred, has a judiciary hearing, and is adjudicated delinquent.
3. Recommitment refers to any juvenile who is re-referred, re-adjudicated, and again committed to the Department's custody for residential placement.

#### B. Criminal Justice Recidivism

1. Arrest refers to any individual, who after contact with juvenile services re-offends and enters the adult criminal justice system.
2. Conviction refers to any individual, who is arrested, has a criminal hearing in the adult system, and is convicted or found guilty.
3. Incarceration refers to any individual who is arrested, convicted, and incarcerated in the adult prison system.

#### C. Juvenile and/or Criminal Justice Recidivism

1. Rereferral/arrest refers to any subsequent contact a youth has either in the juvenile or adult system.
2. Readjudication/conviction refers to any youth who has a judiciary hearing and is adjudicated delinquent or is arrested and has a criminal hearing in the adult system and is convicted or found guilty.

3. Recommitment/incarceration refers to any juvenile who is again committed to the Department's custody for placement or is arrested, convicted, and incarcerated in the adult system.

### DATA SOURCES

Information from two different databases (juvenile and adult) is retrieved, processed, and compiled for each of the selected released cohorts. Data gathering involved the following procedures:

- A list of all youths released from the Department's committed residential programs is obtained from the Department's computerized system, known as ASSIST. In earlier years the Department used the then computerized system Information System for Youth Services (ISYS).
- A master file containing gender, race, date of birth, county of jurisdiction, region of jurisdiction, county of residence, region of residence, the last program name, and program type from which youth was released during the release cohort is created.
- Using the fields mentioned in the master file, sub-programs are created to obtain subsequent referrals, adjudications, and commitments with related fields. Each sub-program data set is compiled in such a way to help divide the follow-up time into one, two, and three years after release.
- To obtain the arrest and disposition information from the Criminal Justice Information System (CJIS), a list of all youth released from each year's cohort is arranged according to the specified data layout.
- CJIS input data is received in a text format. Using the SPSS syntax, first the data fields are separated out. The CJIS file includes DJS youth name, date of birth, and DJS release cohort release date. Once the CJIS data is received any arrest following or equal to the DJS' release date is selected and kept as a master file for each released cohort.
- From the above master file, sub-programs are created to obtain subsequent arrests, convictions, and incarcerations.
- Any youth who recidivated in both systems is included in the DJS recidivism and counted only once by discarding that youth in the adult system.

### A Note to Readers

For purposes of this *Data Resource Guide*, rates will be combined for the juvenile and adult system into three overall categories using the above mentioned Juvenile and/or Criminal Justice Recidivism measures and labeled as:

1. Rearrest
2. Reconviction
3. Reincarceration

## General Recidivism Rates for Committed Program Releases

### 12-, 24-, AND 36-MONTH JUVENILE AND/OR CRIMINAL JUSTICE RECIDIVISM RATES FOR FY 2008-2010 RELEASES, TRACKED THROUGH FY 2011

Follow-up Period	FY 2008			FY 2009			FY 2010

36 Months	74.3%	46.8%	40.9%	N/A	N/A	N/A	N/A	N/A	N/A

- Recidivism rates for FY 2010 releases at 12-months were:
  - Rearrest - 57.2%
  - Reconviction - 20.1%
  - Reincarceration - 13.9%
- The following reoffending patterns were noted at 12-months when comparing FY 2009 and FY 2010:
  - Both rearrest and reincarceration rates decreased while reconviction rates stayed the same.

Note: Throughout this section, programs that had no releases within a fiscal year will have N/A reported for all recidivism measures.

- Demographic data for 12-month recidivism rates are presented in the table above:
  - Males had higher recidivism rates than females for all years and all measures.
  - Black youth had the highest recidivism rates for all years and all measures.
  - Some age groups comprise a small number of youth. Therefore the reoffense of a few can strongly influence the overall rate. For this reason, caution should be used when attempting to compare age groups.

Note: All data represents both juvenile and/or adult involvement

- For Total Foster Care releases (including treatment and in-home foster care) between FY 2008 and FY 2010, all measures decreased: rearrest by 13.0%, reconviction by 3.6%, and reincarceration by 1.3%.

\*Some programs/facilities serve a small number of youth each year; in such instances the reoffenses of only a few juveniles may result in a seemingly high overall reoffense rate. For this reason, numbers rather than rates are presented at the program level.

\*\* Since each privately-operated facility uses a unique program model, it is not meaningful to present a combined overall recidivism rate for these facilities.

For State-Operated Facility releases (not including Privately Operated Facilities)

- Between FY 2008 and FY 2010:
  - The rearrest rates remained the same.
  - The recon- viction rate increased 5.1% and the reincarceration rate increased 1.7%.

\*Some programs/facilities serve a small number of youth each year; in such instances the reoffenses of only a few juveniles may result in a seemingly high overall reoffense rate. For this reason, numbers rather than rates are presented at the program level.

## Committed Placement Information

A range of out-of-home program options (or placements) have been developed for committed youth. Community-based program options include placement in a Foster Home, Group Home, or Independent Living Program. Placements in non-community settings include Intermediate Care Facilities for Addictions (ICFA), Residential Treatment Centers (RTC), DJS-operated Youth Centers, and secure confinement facilities. DJS operates seven facilities in Maryland and contracts with others both in-state and out-of-state.
