Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

PREA America's services were retained on 11/20/17 to conduct the PREA audit of the Lower Eastern Shore Children's Center (LESCC). Notices of the audit went up 6 weeks in advance of the on-site audit, informing residents of how to confidentially contact the auditor. LESCC was completed as scheduled on May 24th, 2018. The audit team arrived at 6 a.m. that morning and met with Superintendent Derrick Witherspoon, PREA Compliance Manager DeWayne Harris, and the agency PREA Coordinator Aaron Keech. Other on-site audit activities commenced right away, with a priority being placed on interviewing overnight staff so they could leave for the day. Most document reviews had already been conducted during the pre-audit process, but the remaining documents were examined or requested, and a tour of the facility was conducted. 10 of the 20 facility residents were eventually interviewed. Only 3 of these interviews can be classified as "targeted" interviews as defined in the PREA Auditor Handbook, because no other youth currently at the facility have been identified with the specified risk factors. Residents were selected randomly from each housing unit, which includes a unit for girls. 3 female residents were interviewed. 15 facility staff and 5 agency staff also have been interviewed for this audit, some of the agency officials being interviewed by phone, others at their offices in Baltimore. 8 of the 15 facility staff were randomly selected, and the other 7 were specialized/administrative.

An exit briefing was completed at the end of the on-site audit. Superintendent Derrick Witherspoon, PREA Compliance Manager DeWayne Harris, and agency PREA Coordinator Aaron Keech participated in this briefing, as well as Anthony Wynn, the agency's Executive Director of Committed Facilities, who joined by phone. Although, at the time of the on-site audit, there were additional agency interviews to complete, and compliance to verify, the audit team had a favorable impression and found no items for corrective action. Instead, the briefing was in large part a review of the audit work completed so far and an acknowledgement of the strengths of the facility and agency. For example, the youth know PREA very well and even play PREA Trivia. PREA education and the screening for risk is completed within 24 hours of the resident's arrival. Contracted language interpreters are not only present for PREA-related purposes, but these interpreters are with youth all day, assisting them with school and other interactions. Investigative work has been completed thoroughly, and retaliation checks have been completed weekly.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Lower Eastern Shore Children's Center (LESCC) serves as a secure detention facility for male and female youth who are waiting to go to court or to be placed in a treatment facility. Located in Wicomico County, LESCC was opened in 2002 and primarily serves youth from the Eastern Shore Region.

The facility consists of one main building, which houses administrative offices, programmatic space, and offices and housing units. The administrative area consists of the master control room and six offices for administrative and support staff. A secured area of the facility contains additional employee offices for all programs; the education area with classrooms; the clinic and medical area; behavioral health; dining and food services; recreation; and intake.

The medical and healthcare area consists of an examination room, offices, two additional medical rooms, and a records room. The food services area contained equipment and storage areas typical for juvenile

facilities, as well as a dining area. The facility has a gymnasium, allowing youth to exercise and recreate during inclement weather. There are three housing units for youth. One unit houses female youth. This unit includes six sleeping rooms, an observation room, a shower, a laundry room, and a day room. Two additional living units house male youth. One unit includes six bedrooms, an observation room, a shower room, a laundry room, and a day room. The remaining unit contains 12 bedrooms, an observation room, two shower rooms, a laundry room, and a day room. Intake also has an office for interviewing youth during the intake process.

Cameras help monitor youth and avoid blind spots. They have the capacity to record.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's

conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

LESCC has developed, documented, and made its best efforts to comply on a regular basis with, a staffing plan that considers all relevant factors, and provides for adequate levels of staffing and video monitoring, to protect residents against abuse. The average daily number of residents is 17. The average daily number of residents on which the staffing plan was predicated is 24. Each time the staffing plan is not complied with, the facility documents and justifies all deviations from the staffing plan. According to the Pre-Audit Questionnaire, interviews, and other documentation received by the auditor, there were no deviations from the plan in the past year. The facility's plan strives to maintain staffing ratios of a minimum of 1:8 during resident waking hours and 1:16 during resident sleeping hours. At least once every year the agency or facility, in collaboration with the PREA Coordinator, reviews the staffing plan to see whether adjustments are needed to the staffing plan; prevailing staffing patterns; the deployment of monitoring technology; or the allocation of agency or facility resources to commit to the staffing plan, to ensure compliance with the staffing plan. The facility requires that intermediate-level or higher-level staff conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These rounds are documented and cover all shifts, according to logs provided and interviews conducted. From the information reviewed by the audit team, and interviews, it appears the facility often exceeds the staffing ratios and does more than the minimum number of unannounced rounds.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

LESCC does not conduct cross-gender searches of residents, absent exigent circumstances. In the past 12 months, no cross-gender searches have been performed. If they are done, they must be documented. Policy and procedures on these matters were reviewed by the auditor and discussed during interviews with staff and residents. The facility has implemented policies and procedures that enable residents to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine room checks (this includes viewing via video camera). Policies and procedures require staff of the opposite gender to announce their presence when entering a resident housing unit or area where residents are likely to be showering, performing bodily functions, or changing clothing. The facility has a policy prohibiting staff from searching or physically examining a transgender or intersex resident for the sole purpose of determining the resident's genital status. None of these searches have occurred in the past 12 months, and it does not appear that any openly transgender residents are currently residing at the facility. Documentation and interviews indicate that all staff have been trained regarding searches and understand the training. Training Curricula were provided to the auditor by the facility and reviewed by the auditor, and training logs were provided and reviewed.

According to the Pre-Audit Questionnaire, a review of policy, and interviews conducted, the Lower Eastern Shore Children Center has established procedures to provide disabled residents, and residents with limited English proficiency (LEP), equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Policy prohibits use of resident interpreters, resident readers, or other types of resident assistants, except in limited circumstances, where an extended delay in obtaining an effective interpreter could compromise the resident's safety, the performance of first-response duties under § 115.364, or the investigation of the resident's allegations. The agency documents the limited circumstances in individual cases where resident interpreters, readers, or other types of resident assistants are used. In the past 12 months, there have not been any instances in which resident interpreters, readers, or other types of resident assistants have been used. Exceeding the minimum requirement of the standard, the agency provides contract interpreters all day for LEP residents, not just when there is a required need. Interpreters accompany the youth to class and assist them in various ways throughout the day.

The Maryland Department of Juvenile Justice requires and monitors that criminal background checks and central registry abuse and neglect registry checks are done annually for all juvenile justice residential facilities. In addition, the Maryland Department of Juvenile Justice overarching policy that must be followed by public and contracted facilities requires this. Phillip Deitchman, Human Resources Director, explained that before being hired the prospective employee gets interviewed by an investigator, and a psychologist. They then get a CAR check and Fed/State Background check, which provide continual updates for any violations, including motor vehicle violations/tickets. Policy reviews, interviews, and reviews of random employee files verify the agency significantly exceeds the minimum standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. Administrative investigations are typically conducted by the Office of Inspector General and Child Protective Services. They coordinate on the criminal investigations typically completed by the Maryland State Police. Where possible, examinations are conducted by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs). According to the Coordinated Response Plan, and calls made by the audit team, forensic exams are available through SAFEs at Peninsula Regional Medical Center in Salisbury, MD. When SANEs or SAFEs are not available, a qualified medical practitioner performs forensic medical examinations. The facility documents efforts to provide SANEs or SAFEs. During the past 12 months there have been no forensic medical exams conducted for LESCC residents. The facility attempts to make a victim advocate from a rape crisis center available to the victim, in person or by other means, and documents these efforts. If and when a rape crisis center is not available to provide victim advocate services, the facility provides a qualified staff member from a community-based organization or a qualified agency staff member. According to documentation provided by PREA Coordinator Aaron Keech, and verified by the audit team, LESCC gets advocacy through Life Crisis Services in Salisbury. Also, the agency maintains a list of staff trained to provide sexual abuse response and advocacy.

The agency's policy regarding the referral of allegations of sexual abuse or sexual harassment for a criminal investigation is published on the agency website. PREA

Key information about the agency's PREA policies is continuously and readily available or visible through posters, resident handbooks, or other written formats. The agency provides resident education in formats accessible to all residents, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to residents who have limited reading skills. Information received during the pre-audit process, as well as during the on-site audit, including interviews with staff and residents, indicates the residents understand the zero-tolerance policy and various ways to report.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Lower Eastern Shore Children Center has a policy that requires screening upon admission for risk of sexual abuse victimization or sexual abusiveness toward other residents, using an objective screening instrument, within 24 hours of their intake, significantly exceeding the standard which requires this be done within 72 hours. Interviews indicate that in actual practice, the screenings (called Vulnerability Assessment Instruments) are typically done within the first few hours of the resident’s arrival. Also, the policy requires that a resident's risk level be reassessed periodically throughout their confinement. When reassessments are done, a housing reassessment is also completed. The auditor viewed examples of the screening instrument and spoke with staff involved in the intake/admissions process. Also exceeding the standard, other screening instruments are used as well. The screening instruments attempt to glean relevant information relating to risk beyond the minimum requirements under this standard. Interviews conducted during the onsite audit, including interviews with residents, indicate quality screenings and reassessments are being done, and that there is a high level of confidence the information is properly used and properly protected. Classification of Youth in DJS Residential Facilities (Policy Number RF-716-18), states, in Section III A (6), “Copies of the completed VAI and the Housing Classification Assessment Forms shall be placed in the youth’s base file. The information obtained from the classification and VAI assessments shall be shared only with designated staff who have a need to know. Staff shall ensure confidentiality of all youth information.”

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

LESCC uses information from the risk screening required by §115.341 to inform housing, bed, work, education, and program assignments. This information is gleaned through conversations with the resident and during medical and mental health screenings; during classification assessments; and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the resident's file. Youth at LESCC express a belief that they trust staff to help them while practicing appropriate discretion with sensitive information. Regarding isolation, Classification of Youth in DJS Residential Facilities Policy (RF-716-13) B(2) states, "Youth may be separated from others only as a last resort when less restrictive measures are inadequate to keep them and other youth safe and then only until an alternative means of keeping all youth safe can be arranged. During any period of isolation, youth shall not be denied daily large-muscle exercise, and any legally required educational programming or special education services. Youth shall be seen daily by medical and mental health care staff. Youth shall also have access to other programs and work opportunities to the extent possible. If a youth is isolated, the administrator must document in the youth's file the basis for the concern for the youth's safety, and the reason why no alternative means of separation can be arranged." The facility Housing Plan for At-Risk Youth FOP echoes these guidelines, stating, "If a youth must be housed separately from others due to an imminent risk to his/her health or safety, all available services such as educational, medical, mental health, and recreation must be afforded to the youth. These youth shall receive daily visits from a medical or mental health care clinician." Youth were interviewed who said they had been taken to the Intake area due to a behavior problem such as fighting. They told the auditor that this process is brief, maybe a few hours or a day, and they have access to any care they need while there. These residents talked freely about the experience, indicating they just needed to calm down and they always had all their rights and could always visit with staff. Everything was explained to them while they calmed down. They say they could make reports or complaints from that area if they needed to (but did not need to), and they were never without care and supervision. They also indicated the facility is fair, giving residents equal treatment, based on their needs, and safety, when these decisions are made.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

LESCC has established procedures allowing for multiple internal ways for residents to report privately to agency officials about sexual abuse and sexual harassment; retaliation by other residents or staff for reporting sexual abuse and sexual harassment; and staff neglect or violation of responsibilities that may have contributed to such incidents. Residents can report verbally, through the grievance process, or through the outside reporting options. In signs and handouts, youth are told to call 211, "The Sexual Abuse Hotline was created so that you will be able to report sexual abuse or sexual harassment confidentially. The Hotline is an outside agency that will receive your concern and ensure that it is reported to Child Protective Services for investigation. The Hotline will also inform the Department of Juvenile Services so that steps can be taken immediately for your protection. It is important to us that you are safe and free from all types of abuse during your placement. The Sexual Abuse Hotline is available 24 hours each day, 7 days a week."

The facility does not house any residents detained solely for civil immigration purposes, so parts of this standard are non-applicable. The agency has a policy mandating that staff accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously, and from third parties. The agency has established procedures for staff to privately report sexual abuse and sexual harassment of residents.

Standard 115.352: Exhaustion of administrative remedies

This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. Yes No NA

115.352 (b)

- Does the agency permit residents to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any

portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) Yes No NA

(Computation of the 90-day time period does not include time consumed by residents in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA
- If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time [the maximum allowable extension of time to respond is 70 days per 115.352(d)(3)], does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? 115.352 (e)

- Are third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, permitted to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- Are those third parties also permitted to file such requests on behalf of residents? (If a third party, other than a parent or legal guardian, files such a request on behalf of a resident, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) 115.352 (f)

- Has the agency established procedures for the filing of an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA

Instructions for Overall Compliance Determination Narrative

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

LESCC has an administrative procedure for dealing with resident grievances regarding sexual abuse which allows a resident to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. The agency policy does not require a resident to use an informal grievance process, or otherwise to attempt to resolve with staff, an alleged incident of sexual abuse. Policy and procedure allow a resident to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. The policy requires that a resident grievance alleging sexual abuse not be referred to the staff member who is the subject of the complaint. While the system is set up to accept grievances alleging sexual abuse, once these grievances are received, they are handled according to PREA policy, rather than continuing to be processed totally within the grievance system. Policy OPS-907-15 states, in the first paragraph, "The Department of Juvenile Services (DJS) shall ensure youth and individuals acting on behalf of DJS youth can file a grievance for a situation related to behavior of other youth or staff, contractors or volunteers, or to the conditions of confinement. If the youth initiates a grievance alleging abuse, neglect, sexual abuse or mental injury, the Department's Youth Advocacy Unit will not handle that grievance but will instead report the incident to Child Protective Services (CPS), the Maryland State Police, and the DJS' Office of the Inspector General (OIG) for immediate investigation. Grievances do not replace staff responsibility for reporting abuse, neglect, sexual abuse or mental injury." Then, on page 5 of the policy, Direct Care Staff Responsibilities include, "Report allegations of sexual abuse or harassment in accordance with the DJS PREA - Elimination and Reporting of Sexual Abuse and Harassment Policy and Procedures, if the youth indicates to the staff that this subject is the nature of the grievance." Since sexual abuse and harassment allegations are reported outside the grievance system, the grievance system timelines do not apply to these types of allegations. However, there is a protocol on page 7 of this policy regarding emergency grievances which "must be resolved within eight hours of receipt. A verbal response must be followed with a written response within 48 hours of receipt to the youth and the Director of the Youth Advocacy Unit." Policy and procedure permits third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse, and to file such requests on behalf of residents. Agency policy and procedure require that if the resident declines to have third-party assistance in filing a grievance alleging sexual abuse, the agency documents the resident's decision to decline. The written policy limits the agency's ability to discipline a resident for filing a grievance alleging sexual abuse to occasions where the agency demonstrates that the resident filed the grievance in bad faith.

Residents are provided access to outside victim advocates for emotional support services related to sexual abuse. They are provided with phone numbers upon admission, as well as by postings around the building. They are assisted in communicating with these organizations, in as confidential a manner as possible. The facility informs residents, prior to giving them access to outside support services, of the extent to which such communications will be monitored. The facility informs residents, prior to giving them access to outside support services, of the mandatory reporting rules governing privacy, confidentiality, and/or privilege that apply to disclosures of sexual abuse made to outside victim advocates, including any limits to confidentiality under relevant Federal, State, or local law. The agency maintains documentation regarding attempts to enter into memoranda of understanding (MOUs) or other agreements with community service providers that are able to provide residents with emotional support services related to sexual abuse. Forensic exams are performed at Peninsula Regional Medical Center, Salisbury, MD. Advocacy is coordinated through Maryland Coalition Against Sexual Assault (MCASA). LESCC gets advocacy through Life Crisis Services in Salisbury, as verified by the audit team. Efforts to secure MOU’s are ongoing, but services are currently available to residents.

LESCC provides a method to receive third-party reports of resident sexual abuse or sexual harassment. Third-party reports can be made through the grievance system, through the reporting line, or by verbal or written reporting to the facility or agency. Staff and residents interviewed knew that reports can be received through other people, even through people outside the facility; that reports can be made anonymously; and that reports can be made through outside organizations. The agency and facility publicly distribute information on how to report resident sexual abuse or sexual harassment on behalf of residents. Information is provided to the resident and family. Posters list the CPS toll-free number and other reporting options, the information is included in youth and staff training, and the information is listed on the Maryland Department of Juvenile Services Website.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

LESCC requires all staff to report immediately and according to agency policy: any knowledge, suspicion, or information they receive regarding an incident of sexual abuse or sexual harassment that occurred in a facility, whether or not it is part of the agency; any retaliation against residents or staff who reported such an incident; and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. The agency requires all staff to comply with any applicable mandatory child abuse reporting laws. Apart from reporting to designated supervisors or officials and designated State or local service agencies, Maryland DJS policy prohibits staff from revealing any information related to a sexual abuse report to anyone other than to the extent necessary to make treatment, investigation, and other security and management decisions. Medical and mental health practitioners are mandated reporters and are required to inform residents at the initiation of services of their duty to report and the limitations of confidentiality. When the Lower Eastern Shore Children Center learns that a resident is subject to a substantial risk of imminent sexual abuse, it takes immediate action to protect the resident. According to the Pre-Audit Questionnaire, in the past 12 months, there has been one time the agency or facility determined that a resident was subject to substantial risk of imminent sexual abuse. Staff interviewed indicate that depending on the specifics of the information received about the substantial risk of harm, they would follow as many of the First Responder Protocols as might apply to the situation. The facility treats every allegation as a potential substantial risk situation. Compliance was established with a review of documents, policy, and interviews, including the interviews with PREA Compliance Manager DeWayne Harris and PREA Coordinator Aaron Keech.

The agency policy requires that, upon learning of an allegation that a resident was sexually abused, the first security staff member to respond to the report is required to separate the alleged victim and abuser; preserve and protect any crime scene until appropriate steps can be taken to collect any evidence; if the abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating; and if the abuse occurred within a time period that still allows for the collection of physical evidence, ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. Policy requires that if the first staff responder is not a security staff member, that responder is required to request that the alleged victim not take any actions that could destroy physical evidence and notify security. Interviews conducted, and documentation received by the audit team, indicate staff and administrators have recently reviewed these duties.

LESCC has a policy to protect all residents and staff who report sexual abuse or sexual harassment, or who cooperate with sexual abuse or sexual harassment investigations, from retaliation by other residents or staff. Exceeding the minimum requirements of this standard, the agency designates duplicate administrative staff with official duties of monitoring for possible retaliation. This is in addition to mandating that everyone keeps possible retaliation in mind. PREA Compliance Manager DeWayne Harris monitors the conduct and treatment of residents or staff who reported sexual abuse, and of residents who were reported to have suffered sexual abuse, to see if there are any changes that may suggest possible retaliation by residents or staff, for 90 days or as long as needed. Also exceeding this standard, this monitoring is documented on a weekly basis. The facility acts promptly to remedy any such retaliation. No incidents of retaliation are known to have occurred in the past 12 months.

There is always a level of positive contact with staff and other residents. Interviews with both residents and staff indicate that typically this time of restricted interaction is very brief, but can be up to a few days. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

LESCC has a policy related to criminal and administrative agency investigations. The agency does not terminate an investigation solely because the source of the allegation recants the allegation. The substantiated allegations of conduct that appear to be criminal are referred for prosecution. The agency retains all written reports pertaining to the administrative or criminal investigation of alleged sexual abuse or sexual harassment for as long as the alleged abuser is a resident or is employed by the agency, plus five years. The Office of Inspector General usually conducts the facility's administrative investigations. Interviews, and a review of investigative documentation, indicate they do these investigations promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. These administrative investigations include an effort to determine whether staff actions or failures to act contributed to the abuse, and the investigations are documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. When the quality of evidence appears to support criminal prosecution, the agency will conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution. The credibility of an alleged victim, suspect, or witness is assessed on an individual basis and not determined by the person's status as resident or staff. The departure of the alleged abuser or victim from the employment or control of the facility or agency does not provide a basis for terminating an investigation. No resident who alleges sexual abuse will have to submit to

a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation. When outside agencies investigate sexual abuse, the facility cooperates and endeavors to remain informed about the progress of the investigation. Verification of compliance with all parts of this standard was made possible through a close review of agency policies, facility FOP's, and investigative documentation, in addition to interviews with investigators and administrators.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy requires that any resident who makes an allegation that he or she suffered sexual abuse in the facility is informed, verbally or in writing, as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded following an investigation. In the past 12 months there has been one administrative investigation of alleged resident sexual abuse or harassment. If an outside entity conducts an investigation, the agency requests the relevant information from the investigative entity in order to inform the resident of the outcome of the investigation. Following a resident's allegation that a staff member has committed sexual abuse against the resident, the facility subsequently informs the resident (unless the facility has determined that the allegation is unfounded) whenever: the staff member is no longer posted within the resident's unit; the staff member is no longer employed at the facility; the agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility. There have been no allegations of sexual abuse committed by a staff member against a resident in the past 12 months. Following a resident's allegation that he or she has been sexually abused by another resident in an agency facility, the agency subsequently informs the alleged victim whenever the agency learns that the alleged abuser has been indicted or convicted on a charge related to sexual abuse within the facility. The agency has a policy that all notifications to residents described under this standard are documented. Compliance with this standard was verified through interviews, review of policy, and a review of investigative documentation, including the notification made for the investigation completed in the past 12 months.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Interviews and documentation received by the auditor indicate that staff are subject to disciplinary sanctions up to and including termination for violating LESCO's sexual abuse or sexual harassment policies. In the past 12 months there have been no staff alleged to have violated agency sexual abuse or sexual harassment policies. Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and

circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. Termination is the presumptive disciplinary sanction for staff who have engaged in sexual abuse. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies.

Interviews with supervisors and with the PREA Compliance Manager indicate that any contractor or volunteer who engages in sexual abuse be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies. Lower Eastern Shore Children Center policy requires

that any contractor or volunteer who engages in sexual abuse be prohibited from contact with residents. In the past 12 months, there have been no allegation or reports regarding volunteers. The facility takes appropriate remedial measures and considers whether to prohibit further contact with residents in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer.

As verified through interviews and a review of policy, residents are subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative finding that the resident engaged in resident-on-resident sexual abuse, or a criminal finding of guilt. In the past 12 months there have been no substantiated allegations or criminal findings of guilt. The following is an excerpt from their Elimination and Reporting of Sexual Abuse and Harassment- PREA Juvenile Facility Standards Compliance Policy (NUMBER: RF-701-15):

Interviews and reviews of policy indicate that resident victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services. The nature and scope of such services are determined by medical and mental health practitioners according to their professional judgment. Medical and mental health staff maintain secondary materials documenting the timeliness of emergency medical treatment and crisis intervention services that were provided; the appropriate response by non-health staff in the event health staff are not present at the time the incident is reported; and the provision of appropriate and timely information and services concerning contraception and sexually transmitted infection prophylaxis. Treatment services are provided to every victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. Documentation verifying that policies and procedures are in place to comply with all parts of this standard was provided to the audit team. However, since no forensic exams have been performed or indicated in the past 12 months, the audit team has not reviewed actual medical reports related to emergency care for sexual abuse. LESC residents receive emergency care at Peninsula Regional Medical Center.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The facility conducts a sexual abuse incident review at the conclusion of every sexual abuse criminal or administrative investigation. This standard does not require these reviews be performed when the allegation has been found to be unfounded. However, exceeding the minimum requirement of this standard, the agency has a practice of doing incident reviews even when the allegation has been investigated and determined to be unfounded. In the past 12 months, there has been one investigation of alleged sexual

abuse to review, and the auditor read the documentation of the Sexual Incident Review that was completed. The LESCC Sexual Abuse Incident Review Team FOP states, "The members of the Incident Review Team are comprised of those belonging to the facility's multi-disciplinary team such as administration, mental health, nurses, direct care staff, case managers, and education, and is designed to coordinate a survivor-center response to sexual assault." The PREA Standard requires that Incident Reviews are done within 30 days of the conclusion of the criminal or administrative sexual abuse investigation, but LESCC completes them within 7 days. The FOP states, "This audit review is in addition to the Management Audit Review the Facility Administrator completes after every Incident Report and shall be completed in a timely manner to review staff handling of the incident. . . . Such review shall ordinarily occur within 7 days of the conclusion of the investigation. . . . The multi-disciplinary treatment team, shall include upper-level management officials, with input from line supervisors, investigators, and medical or mental health practitioners." The review team considers whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; and whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or, gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility. The team examines the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse; and the team also assesses the adequacy of staffing levels in that area during different shifts. They assess whether monitoring technology should be deployed or augmented to supplement supervision by staff. They report their findings, and any recommendations they have for improvement, to the facility superintendent and PREA compliance manager. Interviews verify the facility implements the recommendations for improvement or documents its reasons for not doing so. To add further emphasis to the importance of this procedure, the FOP concludes with the following statement, "Failure to comply with this procedure shall be grounds for disciplinary action up to and including termination of employment."

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency provided the Pre-Audit Questionnaire and supporting documentation more than 3 weeks in advance of the on-site audit and showed material evidence of PREA compliance that appears to have spanned over the course of several years. Although the agency did not have 1/3 of their facilities audited last year, they have caught up and are current on their auditing requirements.
