## **Audit Findings**

### **Audit Narrative**

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

PREA America's services were retained on November 11, 2017, to conduct the 2019 PREA audit of the J. DeWeese Carter Youth Facility (Carter). Introductory communication with the PREA Coordinator took place shortly after scheduling the on-site audit dates, including discussion of the audit process; audit preparation; the Pre- Audit Questionnaire (PAQ); supporting documents; and elements of the on-site visit. In February, it was decided to set the on-site date of June 17. Also, a conference call was arranged with facility and agency administrators for April 5. The Audit Notice Posting was sent, with instructions to print on colored paper and about proper distribution of the posting. Alternative-language posting was also made available. Proof of posting was verified by emailed photos of the various locations in the facility the postings were placed. The notices were posted on 4/22/19. The date of the email was used to verify the minimum posting requirement of six weeks, along with observations of the postings during the physical plant tour.

During the Pre-Audit Phase, an extensive desk audit was conducted, starting on 05-17-2019, when the PAQ and supporting materials were received on a flash drive. Additional emails were exchanged, and phone conferences held, to clarify issues. This phase of the audit was used to collaborate with the facility staff on questions and concerns with documenting compliance. The communication with the facility staff was used, not only to understand the policies and procedures unique to the facility, but also how PREA was put into practice. Internet research was done on the facility.

All documents received were reviewed, including logs, training files, and curricula. To verify compliance with the initial background check, the child abuse registry check, and the 5-year recheck requirement, reviews were conducted of files on 8 randomly selected staff, and 3 contractors and volunteers. PREA education and PREA Screening documentation was reviewed for all residents admitted during the past 12 months. Phone calls were made to listed advocates, to verify the availability of advocacy and forensic exams as required by the standards. Progress toward Memoranda of Understanding (MOU's) for advocacy and forensic services was verified. The audit team noticed, that in the Facility Operating Procedures, the First Responder Duties could have been worded in a way that better reflected the intent of §115.364, and to lower the risk of re-traumatization of a victim. The agency and facility immediately issued an update to the FOP, and staff were provided refresher training.

The on-site audit started with a briefing, which included confirming current population of 9; agenda and logistics review; discussion of mandatory reporting; and clarification of the need to allow any staff or resident who requests an interview to get one. The audit team checked to see if there were questions or concerns. The PREA America audit team consists of Project Manager Tom Kovach and DOJ Certified PREA Auditor Will Weir.

The Site Review included obtaining and studying the facility diagram of the physical plant. The supervision and movement of staff and residents were observed, along with casual conversation to ascertain whether observations made were of "normal" supervision and movement. Random checks were made to assure doors intended to be secured were locked. Random checks of PREA Hotline phones for functionality were made. All housing units and bathroom facilities were inspected for compliance regarding cross-gender supervision. This included a camera review, for those areas with cameras. All areas of the physical plants were observed, with attention to those areas which statistically are high risk for sexual abuse. PREA Postings in the visitation area, including third-party reporting postings, were checked. Confirmation of the availability to staff of written First Responder Duties was also a part of the tour. Blind spots were identified, and procedures for checking them were verified.

Interviews are normally selected in accordance with the guidance of the PREA Auditor Handbook, with random selections of residents to ensure diversity of geographic location (from each housing unit), race, and those with risk factors. However, in the case of the Carter Center, an attempt was made to interview all residents. 8 of 9 residents were interviewed. One resident declined an interview.

Random Staff interviews were made to include gender, shift and posting diversity. Interviews were in a conversational manner, to gain the confidence of those interviewed, and to put them at ease, so the audit team could better understand their comprehension of the practice of PREA in the facility. The following interviews of staff were conducted: 12 Random Staff; 12 Specialized Staff: Superintendent, Local Investigator, PREA Compliance Manager, Higher-Level Staff for unannounced rounds, Medical Staff, Mental Health Staff, Contractor, Staff who perform screening and intake, Staff who monitor for retaliation, and members of the Incident Review Team; and 5 Agency Staff: Contract Monitor, Agency Head Designee, Agency PREA Coordinator, Agency Human Resources, and Deputy Inspector General. Since Specialized Staff perform multiple duties at a small facility, each was interviewed according to the duties they perform.

The Exit Briefing, attended by 9 administrators, addressed all aspects of the audit to date. No determination of compliance was given. The recap of the aggregated information obtained and observed was summarized. By the request of the facility staff, this included a SWOT briefing (a review of Strengths, Weaknesses, Opportunities, and Threats), to assist in furthering the efforts of the facility to prevent and detect sexual abuse and harassment. Many strengths were observed, such as the availability of mental health professionals to the residents, the efficiency of the staff, and their ability to work as a team, as demonstrated in the way the audit process was effectively facilitated. All staff who were interviewed demonstrated a good understanding of First Responder Duties. Some of the challenges identified, and areas for improvement, along with the things that were done in the 30 days after the on-site portion of the audit to resolve the concerns, are mentioned below.

One issue regarding screenings and reassessments had been observed during the Pre-Audit phase and document review. Although screenings for risk are consistently completed promptly upon a resident's arrival at the facility, they did not appear to document all risk factors. For example, some of the information about a resident's prior alleged abusiveness and prior history of mental illness was missed on the screening tool, although it was documented elsewhere. Likewise, although residents are referred for screening by a mental health practitioner, as appropriate, and this is documented; the actual screening did not appear to be consistently documented. Interviews conducted did not indicate instances of information being totally missed; but, instead, work that was being done, and information that was known, had not always made it into the screening documentation. Multidisciplinary meetings and information sharing were clearly taking place. For example, Trauma Plans and Safety Plans were well-documented regarding any suicidal ideations; but information that sprung from that process, such

as mental illnesses, that was pertinent to screening for risk, did not get documented on the reassessment forms. During the 30 days after the site visit, all residents received re-assessments that included all the provisions of Standard §115.341, and these were provided to the auditor, showing clear documentation regarding mental health follow-up, and that the information was appropriately available to those making decisions about the care of residents, consistent with §115.342.

An issue that came up during the on-site interviews regarded investigations of sexual abuse and sexual harassment. The PAQ documentation indicated that no allegations of sexual abuse or sexual harassment had been received regarding the facility for the past year. During interviews, however, half the residents stated a belief that such investigations are not done at the Carter Center, although they should be. They told the auditor that they had been told than an allegation had been made, and that although staff were overheard talking about it, it had not been investigated because staff thought it was false. When staff and administrators were asked whether an allegation had been made, the audit team received a variety of conflicting views. The Office of the Inspector General produced their record of the 211 call that prompted the controversy, but the call did not allege sexual harassment. The caller (the person making the report) indicated that one resident at the Carter Center made another resident uncomfortable. However, the facility's record of the call to the facility from the 211 Operator, informing them that a complaint had been made, gave the impression that an actual allegation of sexual harassment had been made. Since, at no point, did the OIG reviewers have any indication that an allegation of sexual harassment had been made, they assigned the compliant for investigation by facility investigators, not as a sexual harassment investigation. In such cases, the welfare of residents is verified, and a determination is made regarding whether any rules or policies have been violated. Any indication or suspicion of sexual abuse or sexual harassment arising out of such inquires is immediately reported back to OIG for assignment to a Sexual Abuse/Sexual Harassment (PREA) Investigator. Although no allegation or suspicion of sexual harassment was uncovered during the Facility Management Investigation, there were statements indicating that the 211 call was made "to be petty", but that the contents of the call were true. One youth was given a behavior infraction for making a "false" allegation of sexual harassment. During the 30 days after the on-site audit, the circumstances surrounding the 211 call, and the aftermath, were investigated. There was evidence produced that more than one youth had, indeed, been feeling uncomfortable. Even though the call might have been made out of pettiness, no allegation of sexual harassment was made; so, whatever the call was, it was not a false report of sexual harassment. Once they had the whole story, and the actual 211 call evidence, the behavior infraction was rescinded by those who issued it. This issue relates to Standard 115.378(f) which states, "For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation." The PREA definition of full compliance with a Standard "means compliance with all material requirements of each standard except for de minimis violations, or discrete and temporary violations during otherwise sustained periods of compliance." Since there might have been a misunderstanding from the 211 Operator's description of the call, any violation of this Standard is de minimus, and has been resolved.

3 residents stated their belief that all calls leaving the facility are recorded, calling into question whether they have a confidential reporting system, regardless of the educational materials that teach them that they do. Upon hearing this concern, the agency and facility placed written notices on telephones letting them know that 211 calls are not recorded. The residents were also provided education regarding this, and their acknowledgement documentation was provided to the audit team.

Several staff expressed confusion regarding issues of consent, and a lack of understanding regarding victim advocacy, as well as terms like cross-gender and transgender. So, in addition to the training

already mentioned regarding First Responder Duties, in the 30 days after the on-site audit, staff also received training regarding Victim Advocacy, Age of Consent, and Cross-Gender Pat-Down Searches and related terms. Curricula and sign-in sheets were provided to the audit team.

Regarding a blind spot identified in the laundry room, the facility has provided proof of their request for an additional camera. In the meantime, they have built shelves and braced the machine in such a way as to lower the risk of a person being able to hide there. Photos have been provided.

## **Facility Characteristics**

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

In August, 1982, the J. DeWeese Carter Youth Facility (Carter) opened as a secure juvenile detention facility and remained in that capacity until late 2010. In November, 2011, the Department of Juvenile Services changed Carter's function by closing the secure detention program for male youth and opening a secure treatment program for female youth. Girls in the secure treatment program at Thomas J. S. Waxter Children's Center (Waxter) in Laurel were transferred to Carter in December 2011.

Carter provides dietary, medical, educational, and individualized rehabilitative and mental health counseling services, as well as space for recreation. In addition to receiving services, girls placed at Carter attend school in the facility. Specialized treatment and services include life skills, behavior modification, substance abuse education, and anger management groups. All youth are afforded access to medical services. Recreational, religious, and volunteer programs also are provided, as well as a variety of enrichment activities. The Maryland State Department of Education provides accredited educational and vocational programming to each youth at the facility. Eligible youth may obtain their General Educational Development (GED) or concentrate on advanced studies.

The facility has two buildings: one for school, and one for housing and administration. The main building is cross-shaped: with two wings for housing, one for administration, and one for kitchen and recreation. A sally port and an intake area are next to the administration wing, along with a nursing office. The housing wings are slightly different. Both have separate bathrooms. One has a laundry room and storage and the other library/lounge and storage along with maintenance office. The school building has four classrooms and a long hall.

## **Summary of Audit Findings**

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

## **Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The Carter Center has a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment, and has a policy outlining how it will implement the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. In addition to including definitions of prohibited behaviors regarding sexual abuse and sexual harassment, this policy includes sanctions for those found to have participated in prohibited behaviors. It describes both the agency's strategies and its responses to reduce and prevent sexual abuse and sexual harassment of residents. The agency employs an upper-level, agency-wide PREA Coordinator, who reports to the Deputy Inspector General. The facility has designated the Assistant Superintendent as the PREA Compliance Manager.

**Analysis:** Documentation reviewed for compliance with this standard includes: Facility Operating Procedure; Agency and Facility Organizational Charts; Maryland Department of Juvenile Services (DJS) Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance, and the associated Procedures; Memos of the appointment of the Agency-Wide PREA Coordinator; and Memo appointing the PREA Compliance Manager, and list of duties. In addition, interviews conducted with the PC, PC's supervisor, PCM, PCM's supervisor, and

many other interviews conducted throughout this audit, also serve to verify compliance with this Standard. **Finding:** The agency and facility has shown compliance with this Standard. #### **Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

When DJS contracts for the confinement of its residents with private agencies, or other entities including other government agencies, the agency includes the entity's obligation to adopt and comply with the PREA standards.

**Analysis:** Documentation specifically reviewed for compliance with this standard includes the contracts for the 4 agencies with which DJS contracts for the placement of youth. The agencies are: The Cornell Abraxas Group (a GEO Group Company); Natchez Trace (UHS of Delaware, Inc). (d/b/a KidLink Network): Mid-Atlantic Youth Services Corporation; and The Summit School, Inc. The past contracts include the required PREA language, as do updated versions of the contracts, which still require full PREA compliance and monitoring but with more explicit language specific to PREA Standards and related DJS policies. Also consistent with this Standard are DJS PREA Policy and Procedures RF-701-18, III A (3); email records related to compliance monitoring (including an email from the Director of DJS Licensing and Monitoring); and the interview with an agency compliance monitor.

**Finding:** The agency has shown compliance with this Standard.

Instructions for Overall Compliance Determination Narrative
The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
The Carter Center has developed, documented, and made its best efforts to comply on a regular basis with, a staffing plan that considers all relevant factors, and provides for adequate levels of staffing and video monitoring, to protect residents against abuse. The average daily number of residents is 8. The average daily number of residents on which the staffing plan was predicated is 14. Each time the staffing plan is not complied with, the facility documents and justifies all deviations from the staffing plan. According to the Pre-Audit Questionnaire, interviews, and other documentation received by the auditor, there were no deviations from the plan in the past year. Although the Standard requires minimum staffing ratios of 1:8 during resident waking hours and 1:16 during resident sleeping hours, the facility's track record indicates a ratio of 1:7 has been typically maintained during all shifts for the past few years, significantly exceeding this Standard. At least once every year, the facility, in collaboration with the PREA Coordinator, reviews the staffing plan to see whether adjustments are needed to the staffing plan; prevailing staffing patterns; the deployment of monitoring technology; or the allocation of agency or facility resources to commit to the staffing plan, to ensure compliance with the staffing plan. The facility requires that intermediate-level or higher-level staff conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment.
Analysis: Documentation reviewed for compliance with this standard include: Facility Staff-to-Youth ratios from Direct Care Procedure Appendix 2 for years 2017-2019; Facility Vulnerability Assessment for years 2017-2019; FOP regarding Exigent Circumstances for Cross-gender Searches; Blind Spot Evaluation; Facility Staffing Plan 2017-2019; Quarterly Facility Surveillance Camera Listing 2018-2019; FOP for compliance with Department of Juvenile Services Policy RF-713-14; FOP for Maintaining Ratios in Exigent Circumstances; FOP re: Unannounced Rounds; FOP Security and Control; and 2017-2019 Staff Schedules. Logs of unannounced rounds provided, and interviews conducted, document that these rounds are documented and cover all shifts.
<b>Finding:</b> The facility has significantly exceeded the minimum requirements of this Standard.

#### **Instructions for Overall Compliance Determination Narrative**

**Auditor Overall Compliance Determination** 

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The facility has implemented policies and procedures that enable residents to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine room checks (this includes viewing via video camera). Policies and procedures require staff of the opposite gender to announce their presence when entering a resident housing unit or area where residents are likely to be showering, performing bodily functions, or changing clothing. When referring to persons of the opposite gender performing searches or supervising residents, the Standards, and associated policies, sometimes refer to this as cross-gender searches, or cross-gender supervision. The facility also has policy consistent will all provisions of this Standard, including prohibiting staff from searching or physically examining a transgender or intersex resident for the sole purpose of determining the resident's genital status.

Analysis: Documentation reviewed for compliance with this standard include: Staff PREA Refresher Logs; Pat-Down Search Brochure; Pat Searches Handout; PREA Pat Searches Performance Checklist; Exigent Circumstances Scenarios; Search Training PowerPoint; Pat-Down Search Step-by-Step Training Guide; Maryland Police and Correctional Training Commissions Lesson Plan; Visual Body Search Brochure; Visual Body Search Training Aid; Executive Directive OP/02-17 Visual Body Searches and Use of Mechanical Restraints During Transports; facility FOPs regarding security, supervision, shower procedures, and searches; DJS Policy RF-712-18 Searches of Youth, Employees, and Visitors; Policy RF-713-14 Direct Care Staffing; Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance; Policy RF-740-17 Supervision and Movement of Youth; Policy RF-715-18 Admissions and Orientation of Youth in DJS Facilities; DJS Residential Services On-the-Job Manual; OJT Certificates. This multiplicity of documentation, in combination with interviews with staff and residents indicating compliance with this Standard in practice, assisted the audit team to understand the limits of cross-gender viewing and searching at the facility. In addition, the information provided indicated no instances of exigent circumstances which resulted in cross-gender searches in the past year.

However, several staff expressed a lack of understanding regarding terms like cross-gender and transgender. So, in the 30 days after the on-site audit, staff received training regarding Cross-Gender Pat-Down Searches and related terms. Curricula and sign-in sheets were provided to the audit team.

Regarding a blind spot identified in the laundry room, the facility has provided proof of their request for an additional camera. In the meantime, they have built shelves and braced the machine in such a way to lower the risk of a person being able to hide there. Photos of this change were provided. This is in addition to having this location as an area to check during rounds.

**Finding:** The facility has shown compliance with this Standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency has established procedures to provide disabled residents, and residents with limited English proficiency (LEP), equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Policy prohibits use of resident interpreters, resident readers, or other types of resident assistants, except in limited circumstances, where an extended delay in obtaining an effective interpreter could compromise the resident's safety, the performance of first-response duties under ß 115.364, or the investigation of the resident's allegations. If there ever are exceptions, the agency documents the limited circumstances in individual cases where resident interpreters, readers, or other types of resident assistants are used; however, in the past 12 months, there have none. Exceeding the minimum requirement of the standard, the agency provides contract interpreters all day for LEP residents, not just when there is a required need. Interpreters accompany the youth to class and assist them in various ways throughout the day and into the evening.

Analysis: Documentation reviewed for compliance with this standard includes: ADA and LEP Monthly Monitoring Reports from 2018 to 2019; Contracts with Ad Astra, Interpreters Unlimited, Schreiber, LanguageLine Telephonic; DJS Policy RF-715-18 Admissions and Orientation of Youth in DJS Facilities; Policy OPS-920-18 Communication with Limited English Proficient Persons; Policy MGT-625-14 Nondiscrimination of Youth; Youth Handbook in English and Spanish; Challenge Program Manual for Youth; Interpreter Flashcards; Memo regarding Language Providers; LEP Coordinators List; Request Form for Auxiliary Aids; and the "What You Should Know About Sexual Abuse and Harassment" handout in English and Spanish. In addition to interviewing residents with disabilities, the audit team also asked other residents about how residents are treated when they need extra help for whatever reason. A sampling of resident responses, paraphrased, are as follows: Advocates and Case Managers check on them and residents can easily talk to their Mentor, Therapist, or one of the facility administrators when needed. The IEP class in school gives individualized assistance. Residents report that residents can get the help they need, whether it be an interpreter, glasses, medication, or to be assisted in contacting their families. They also say that everyone is kept safe, regardless of their background or problems.

**Finding:** The facility has shown compliance with this Standard and has exceeded the Standard.

The Maryland Department of Juvenile Services has an overarching policy, mandatory for all public and contracted facilities, which requires annual criminal background checks and annual checks of a central registry of abuse and neglect. Moreover, the agency specifically requires and monitors for compliance with this for all Juvenile Services residential facilities.

Analysis: Documentation reviewed for compliance with this standard include: Staff Disclosure Forms for 2018-2019; Vendor contracts requiring background checks; Contractor and employee files form random selection for background and Child Registry Checks; DJS Policy RF-701-18 IIIA (4) and (5); DJS Policy HR-410-18; PREA-Mandated Disclosure Form; Overview of Hiring Mandated Employees Letter; and New Hire List 2017-2019. This is in addition to reviewing the files of reviewing the background check files regarding 8 staff and contractors. The Human Resources Director explained that before being hired, the prospective employee gets interviewed by an investigator, and by a psychologist. They then get a CAR check and a Fed/State Background check, which provide continual updates for any violations, including motor vehicle violations/tickets. Policy reviews, interviews, and reviews of random employee files verify the agency significantly exceeds the minimum standard.

**Finding:** The agency exceeds the requirements of this Standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Administrative investigations are typically conducted by the Office of Inspector General and Child Protective Services. They coordinate on the criminal investigations, which are typically completed by the Maryland State Police. The police follow uniform evidence protocol. Where possible, examinations are conducted by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs). When SANEs or SAFEs are not available, a qualified medical practitioner performs forensic medical examinations. The facility documents efforts to provide SANEs or SAFEs. During the past 12 months, there have been no forensic medical exams conducted. The facility attempts to make a victim advocate from a rape crisis center available to the victim, in person or by other means, and documents these efforts. If and when a rape crisis center is not available to provide victim advocate services, the facility provides a qualified staff member from a community-based organization or a qualified agency staff member. These are called Sexual Assault Responders/Support Staff (SARS).

Analysis: Documentation reviewed for compliance with this standard includes: DJS Youth Grievance Policy OPS-907-15; SARS Qualified Staff List; Coordinated Response Plan; SARS Training Memo; SARS Protocol; SARS Training Material and Advance Training Material; SARS Training Sign-in sheets; emails about training; Maryland State Attorneys Contact List; SAFE/FNE List; MCASA MOU; All Season, Inc. MOU; Mental Health Licenses List and Certificates; Maryland Forensic Exam Regulations; DJS Policy RF-701-18 (III 4, d); Maryland State Police (MSP) Guidelines for Physical Evidence and Incidents in Facilities; COMAR 10.27.21.3; Email documenting "No Charge for Medical Procedures"; and Maryland VAWA Forensic Compliance Guidelines. Interviews with staff and administrators indicate an understanding appropriate to their role at the facility. The SANE Coordinator and For All Season,

Inc., Advocate, verify these services are available even though the For All Season MOU is still in progress. Forensic exams are available at the University of Maryland Shore Medical Center (AKA Chester River Health System) in Chestertown, MD.

**Finding:** The facility has shown compliance with this Standard.

#### **Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency trains all employees who may have contact with residents on all required matters consistent with this Standard, and more. All staff who may have contact with residents have been trained within the past 12 months.

Analysis: Documentation reviewed for compliance with this standard include: Facility FOP and MDJS policy (RF-701-18) requiring training; Mandated Training Spreadsheet; Training Logs; Admission and Orientation Training; PREA Training and PREA Refresher Training; Training Activity Documents; 2019 Proposed Training Updates; LGBTQI Terms; Boundaries Training; PREA Pocket Guide; 2017 and 2018 Training Curriculum; and training acknowledgments and test scores. Interviewees were questioned regarding the training they received. They verified that they had received all the training they were asked about, and they also demonstrated an understanding of most of the training during the interview. However, several staff expressed confusion regarding issues of consent, and a lack of understanding regarding victim advocacy, as well as about terms, such as cross-gender and transgender. So, in addition to recent refresher training regarding First Responder Duties, in the 30 days after the on-site audit, staff also received training regarding Victim Advocacy, Age of Consent, and Cross-Gender Pat-Down searches and related terms. Curricula and sign-in sheets were provided to the audit team.

**Finding:** The agency and facility have shown compliance with this Standard.

Volunteers and contractors who have contact with residents have been trained on their responsibilities under the agency's policies and procedures regarding sexual abuse and sexual harassment prevention, detection, and response. The agency maintains documentation confirming that volunteers/contractors understand the training they have received. The Carter Center utilizes a variety of contractors and volunteers. Since schooling is provided by the Maryland State Department of Education (MSDE), their staff are considered contractors. The interpreters for residents who have limited English proficiency are contractors. In addition, some medical and mental health services are provided by contractors. Volunteers include the hairstylist, faith-based programming, Girl Scouts, and arts and recreation.

In addition to interviewing a randomly selected contractor and volunteer, the audit team interviewed staff who supervise them. All information and interviews were consistent with compliance with this Standard.

**Finding:** The facility has shown compliance with this Standard.

Carter Center residents receive information regarding the zero-tolerance policy, and about how to report incidents or suspicions of sexual abuse or sexual harassment. Of residents admitted during the past 12 months, all were given this information at intake in an age-appropriate fashion. All other residents have received the training, as well, and each has signed that they understand the training. They have been educated regarding their rights, such as to be free from sexual abuse and sexual harassment, and to be free from retaliation for reporting such incidents. Key information about the agency's PREA policies is continuously and readily available or visible, through posters, resident

handbooks, or other written formats. The agency provides resident education in formats accessible to all residents, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to residents who have limited reading skills.

Analysis: Documentation reviewed for compliance with this standard includes: End the Silence Curriculum; Resident Education Groups Acknowledgements; Youth Intake Packets; Files with Screenings for youth; DJS Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance; Policy RF-715-18 Admissions and Orientation of Youth in DJS Facilities; FOP for Resident Training; PREA Posters; DJS Website; "What You Should Know" brochures; and education and screening documentation for all youth that have been at Carter in the past 12 months. Interviews were conducted of residents and staff, including staff who do admissions. Also, of importance to verifying compliance with this Standard was the PREA Site Review, in which the audit team was able to confirm that postings and materials were up and available.

**Finding:** The facility has shown compliance with this Standard.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency has a policy related to the training of medical and mental health practitioners who work regularly in the facility. All 7 of them have received the training, albeit that they do not do forensic exams. The agency maintains documentation showing that medical and mental health practitioners have completed required training. The training teaches how to detect and assess signs of sexual abuse and sexual harassment; how to preserve physical evidence of sexual abuse; how to respond effectively and professionally to juvenile victims of sexual abuse and sexual harassment; and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment.

**Analysis:** Documentation reviewed for compliance with this Standard includes: NIC Training Certificates; Mental Health Licenses; PREA-Mandated Training Form; Policy RF-701-18 (III A 6); Refresher Training Chart; and SAFE Hospital List. Interviews with Medical and Mental Health Staff indicate these staff understand these tasks and responsibilities.

**Finding:** The facility has shown compliance with this Standard.

#### **Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The Carter Center has a policy that requires screening upon admission for risk of sexual abuse victimization or sexual abusiveness toward other residents, using an objective screening instrument. In actual practice, the screenings, called Vulnerability Assessment Instruments, are typically done within the first few hours of the resident's arrival. Also, the policy requires that a resident's risk level be reassessed periodically throughout their confinement. When reassessments are done, a housing reassessment is also completed.

Analysis: Documentation reviewed for compliance with this standard included Resident Screenings for Risk and Reassessments, along with reassessments performed during the 30 days after the on-site audit. Also reviewed was DJS Policy RF-715-18 Admissions and Orientation of Youth in DJS Facilities (III D): FOP re: Admissions: Housing Classification Assessment and Re-Assessment Forms: Screening Tool; DMST Screening Tool; Youth Vulnerability Assessment Instrument; Bed Chart; and Facility Schematic. One issue regarding screenings and reassessments had been observed during the Pre-Audit phase and document review. Although screenings for risk are done reliably and promptly upon a resident's arrival at the facility, they did not appear to document all risk factors. For example, some of the information about a resident's prior alleged abusiveness and prior history of mental illness was missed on the screening tool, although it was documented elsewhere. Likewise, although residents are referred for screening by a mental health practitioner, as appropriate, and this is documented; the actual screening did not appear to be consistently documented. Interviews conducted did not indicate instances of information being totally missed; but, instead, work that was being done, and information that was known, had not always made it into the screening documentation for consideration along with other potential risks. Multidisciplinary meetings and information-sharing were clearly taking place. For example, Trauma Plans and Safety Plans were well-documented regarding any suicidal ideations. But information that sprung from that process, such as mental illnesses, that was pertinent to screening for risk, did not get documented on the re-assessment forms, although it was clear that the professional

staff were aware of the risk factor. During the 30 days after the site visit, all residents received reassessments that included all the provisions of Standard §115.341, and these were provided to the auditor, showing clear documentation regarding mental health follow-up, and that the information was appropriately available to those making decisions about the care of residents, consistent with §115.342.

Finding: The facility has shown compliance with this Standard.

Instructions for Overall Compliance Determination Narrative			

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Carter Center uses information from the risk screening required by ß115.341 to inform housing, bed, work, education, and program assignments. This information is gleaned through conversations with the resident and during medical and mental health screenings; during classification assessments; and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the resident's file.

**Analysis:** Documentation reviewed for compliance with this standard includes: DJS Policy: RF-716-18 Classification of Youth in DJS Residential Facilities (III B); FOP Housing Plan for At-Risk Youth; FOPs regarding Reception, Service Team, Transfers, and Classification of Youth; Floor Plan; and Housing Bed Chart. During the 30 days after the site visit, all residents received re-assessments that included all the provisions of Standard §115.341, and these were provided to the auditor, showing clear

documentation regarding mental health follow-up, and that the information was appropriately available to those making decisions about the care of residents, consistent with §115.342.		
Finding: The facility has shown compliance with this Standard.

		Exceeds Standard (Substantially exceeds requirement of standards)			
	$\boxtimes$	<b>Meets Standard</b> (Substantial compliance; complies in all material ways with the standard for the relevant review period)			
		Does Not Meet Standard (Requires Corrective Action)			

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DJS has established procedures allowing for multiple internal ways for residents to report privately to agency officials about: sexual abuse and sexual harassment; retaliation by other residents or staff for reporting sexual abuse and sexual harassment; and staff neglect or violation of responsibilities that may have contributed to such incidents. Residents can report verbally, through the grievance process, or through the outside reporting options. The facility does not house any residents detained solely for civil immigration purposes, so parts of this standard are non-applicable. The agency has a policy mandating that staff accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously, and from third parties. The agency has established procedures for staff to privately report sexual abuse and sexual harassment of residents. Agency policy and facility operating procedures reviewed are consistent with this standard, as are staff training curricula and resident education requirements.

DJS has an MOU with 2-1-1 Maryland, Inc., to provide residents with an outside reporting option. Postings prominently placed on walls, and in various materials, provide instructions to "Dial 211" to reach the "Sexual Abuse Hotline." Then readers are provided more information, such as, "The Department of Juvenile Services has a ZERO TOLERANCE Policy for any form of sexual abuse or sexual harassment. Sexual activity is prohibited. If you feel threatened or are fearful of harm report it immediately. You can tell your case manager, unit staff, medical staff, teachers, supervisors, child advocate, your parent or guardian, or any other trusted adult. Your concerns will be addressed promptly in a professional manner. You may also report sexual abuse and sexual harassment using the Sexual Abuse Hotline. The Sexual Abuse Hotline was created so that you will be able to report sexual abuse or sexual harassment confidentially. The Hotline is an outside agency that will receive your concern and ensure that it is reported to Child Protective Services for investigation. The Hotline will also inform the Department of Juvenile Services so that steps can be taken immediately for your protection. It is

important to us that you are safe and free from all types of abuse during your placement. The Sexual Abuse Hotline is available 24 hours each day, 7 days a week. If you have been, or know someone who may have been abused or harmed, tell a trusted adult immediately or call the Sexual Abuse Hotline by dialing 211."

**Analysis:** Documentation reviewed for compliance with this standard include: DJS Policy RF-715-18 Admissions and Orientation of Youth in DJS Facilities (III A 6 & 9, B, & F 6); Policy OPS-913-15 Reporting and Investigating Child Abuse and Neglect; Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance; Youth Handbook; Dialing Instructions in English and Spanish; STARR Program Manual; and Hotline MOU in addition to memos and emails relating to this Standard. Randomly selected staff and residents were questioned about parts of this Standard, as well as the PREA Compliance Manager.

**Finding:** The facility has shown compliance with this Standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The Carter Center has an administrative procedure for dealing with resident grievances regarding sexual abuse which allows a resident to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. The policies and procedures conform to all provisions of this Standard. While the system is set up to accept grievances alleging sexual abuse, once these grievances are received, they are handled according to PREA policy, rather than continuing to be processed totally within the grievance system. Policy OPS-907-15 states, in the first paragraph, "The Department of Juvenile Services (DJS) shall ensure youth and individuals acting on behalf of DJS youth can file a grievance for a situation related to behavior of other youth or staff, contractors or volunteers, or to the conditions of confinement. If the youth initiates a grievance alleging abuse, neglect, sexual abuse or mental injury, the Department's Youth Advocacy Unit will not handle that grievance but will instead report the incident to Child Protective Services (CPS), the Maryland State Police, and the DJS' Office of the Inspector General (OIG) for immediate investigation. Grievances do not replace staff responsibility for reporting abuse, neglect, sexual abuse or mental injury." Then, on page 5 of the policy, Direct Care Staff Responsibilities include, "Report allegations of sexual abuse or harassment in accordance with the DJS PREA - Elimination and Reporting of Sexual Abuse and Harassment Policy and Procedures, if the youth indicates to the staff that this subject is the nature of the grievance." Since sexual abuse and harassment allegations are reported outside the grievance system, the grievance system timelines do not apply to these types of allegations. However, policy requires emergency grievances "be resolved within eight hours of receipt. A verbal response must be followed with a written response within 48 hours of receipt to the youth and the Director of the Youth Advocacy Unit."

**Analysis:** Documentation reviewed for compliance with this standard include: DJS Policy RF-715-18; Policy OPS-913-15, Policy RF-701-18; Policy OPS-907-15; FOP 14.1; Youth Assessment; Letter from Youth Advocate; Grievance Forms; and Memo from PREA Coordinator. The content of interviews with youth, staff and administrators, as well signage observed during the Site Review, go together to indicate the grievance system is in working order, although there have been no known emergency grievances, and all sexual abuse and sexual harassment allegations are sent to OIG, CPS, and/or law enforcement for investigation.

**Finding:** The facility has shown compliance with this Standard.

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Residents are provided access to outside victim advocates for emotional support services related to sexual abuse. They are provided with phone numbers upon admission, as well as by postings around the building. They are assisted in communicating with these organizations, in as confidential a manner as possible. The facility informs residents, prior to giving them access to outside support services, of the extent to which such communications will be monitored. The facility informs residents, prior to giving them access to outside support services, of the mandatory reporting rules governing privacy, confidentiality, and/or privilege that apply to disclosures of sexual abuse made to outside victim advocates, including any limits to confidentiality under relevant Federal, State, or local law. Carter Center youth will be transported to the University of Maryland Shore Medical Center at Chestertown when they need a forensic medical exam. If a Sexual Assault Forensic Nurse Examiner is not available there, other hospitals that have SANEs/SAFEs will be utilized as backup: University of Maryland Shore Medical Center at Queenstown, and University of Maryland Shore Medical Center at Easton.

Analysis: Documentation reviewed for compliance with this Standard includes: DJS Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance (III A 9); Policy RF-706-18 Visitation; Maryland Department of Mental Health and Hygiene Website; MCASA MOU update and Letter; Hotline Posting and "What You Should Know"; Hotline Dialing Instructions; FOP Youth Access to Telephone Calls, Mail, Legal Counsel, and Notification of Family Death or Illness; Resident Education Lesson Component: Outside Counseling Services; FOP Youth Assessment; documented attempts to develop additional advocacy MOU; OPS-913-15; DJS Website; Third-Party Posting; and Third-Party Reporting Diagram. DJS and All Seasons, Inc., have a draft MOU to serve residents of the J. DeWeese Carter Youth Facility, in which DJS "in pursuit of its mission seeks to assure a unified effort to provide the victim-youth with confidential emotional support, accompaniment, crisis intervention, information, and referrals related to sexual violence as required by PREA (Prison Rape Elimination Act) standard 28 C.F.R. §§ 115.321-115.353." Provisions for rape crisis advocates are among the many components of the draft. The Superintendent, PCM, and residents, indicate a belief that Carter residents have access to outside confidential support services and legal representation as needed.

DYS provides a method to receive third-party reports of resident sexual abuse or sexual harassment. Third-party reports can be made through the grievance system, through the reporting line, or by verbal or written reporting to the facility or agency. The agency and facility publicly distribute information on how to report resident sexual abuse or sexual harassment on behalf of residents. Information is provided to the resident and resident's family upon admission.

Analysis: Documentation reviewed for compliance with this standard includes: Youth Orientation and Postcard; Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance; Policy OPS-913-15 Reporting and Investigating Child Abuse and Neglect; Third-Party Reporting Page on the agency website; Third-Party Postings with Office of the Inspector General number (1-855-821-2103); and Third-Party Reporting Diagram. The site review verified that Third-Party information is available in visitation areas. Staff and residents interviewed knew that reports can be received through other people, even through people outside the facility; that reports can be made anonymously; and that reports can be made through outside organizations. Posters list the CPS toll-free number and other reporting options, the information is included in youth and staff training, and the information is listed on the Maryland Department of Juvenile Services Website.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The Carter Center requires all staff to report immediately and according to agency policy: any knowledge, suspicion, or information they receive regarding an incident of sexual abuse or sexual harassment that occurred in a facility, whether or not it is part of the agency; any retaliation against residents or staff who reported such an incident; and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. The agency requires all staff to comply with any applicable mandatory child abuse reporting laws. Apart from reporting to designated supervisors or officials and designated State or local service agencies, Maryland DJS policy prohibits staff from revealing any information related to a sexual abuse report to anyone other than to the extent necessary to make treatment, investigation, and other security and management decisions. Medical and mental health practitioners are mandated reporters and are required to inform residents, at the initiation of services, both of their duty to report and of the limitations of confidentiality. Upon receiving any allegation of sexual abuse, the facility will promptly report the allegation to the appropriate agency office and to the alleged victim's parents or legal guardians, unless the facility has official documentation showing the parents or legal guardians should not be notified. If the alleged victim is under the quardianship of the child welfare system, the report will be made to the alleged victim's caseworker instead of to the parents or legal guardians. If a juvenile court retains jurisdiction over the alleged victim, the facility head or designee will also report the allegation to the juvenile's attorney or other legal representative.

**Analysis:** Documentation reviewed for compliance with this Standard includes: DJS Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance (III A, B, & K); Policy OPS-913-15 Reporting and Investigating Child Abuse and Neglect; Policy OPS-900-15 Incident Reporting–Residential Facilities and Community Operations; FOP Incident Reporting; Incident Reporting Form; COMAR Reporting Standard; and Family Statute Title 07 02.

Interviews with Investigators, as well as agency and facility administrators, indicate these policies are being followed. Line Staff, as well as Medical and Mental Health Staff, also indicate no barriers or lack of compliance.

**Finding:** The facility has shown compliance with this Standard.

When the Carter Center learns that a resident is subject to a substantial risk of imminent sexual abuse, it takes immediate action to protect the resident.

**Analysis:** Documentation reviewed for compliance with this Standard includes DJS Policy RF-701-18, Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance (III C). According to the Pre-Audit Questionnaire, in the past 12 months, there have been no times the agency or facility determined that a resident was subject to risk of imminent sexual abuse. Staff interviewed indicate that, depending on the specifics of the information received about the substantial risk of harm, they would follow as many of the First Responder Protocols as might apply to the situation. The facility treats every allegation as a potential substantial risk situation. Compliance was established with a review of documents, policy, and interviews, including the interviews with the Superintendent, with the PREA Compliance Manager, and with the PREA Coordinator.

**Finding:** The facility has shown compliance with this Standard.

## **Instructions for Overall Compliance Determination Narrative**

**Does Not Meet Standard** (Requires Corrective Action)

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The Carter Center has a policy requiring that, upon receiving an allegation that a resident was sexually abused while confined at another facility, the Superintendent must notify the head of the external facility, or the appropriate office of the agency or facility where sexual abuse is alleged to have occurred, as soon as possible, but no later than 72 hours after receiving the allegation; and that this notification be documented. Policy also requires that the head of the facility notify the appropriate

investigative agency. In the past 12 months, there have been no allegations that the facility received that a resident was abused while confined at another facility. Allegations received from other facilities/agencies are to be investigated in accordance with the PREA standards. In the past 12 months, there have been no allegations of sexual abuse that were received from outside facilities.

Analysis: Documentation reviewed for compliance with this Standard includes: Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance (Part B Reporting); Policy OPS-900-15 Incident Reporting —Residential Facilities and Community Operations (Part B General Reporting Guidelines); and DJS Regional Map, with Regional Director's List and Regional Resource Offices. Interviews with the Agency Head Designee, Superintendent, and PREA administrators indicated a clear understanding of the specifics of this Standard. Other staff had a general understanding regarding their reporting duties.

Finding: The facility has shown compliance with this Standard.

	Exceeds Standard (Substantially exceeds requirement of standards)
$\boxtimes$	<b>Meets Standard</b> (Substantial compliance; complies in all material ways with the standard for the relevant review period)
	Does Not Meet Standard (Requires Corrective Action)

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Carter Center has a first responder policy for allegations of sexual abuse. The agency policy requires that, upon learning of an allegation that a resident was sexually abused, the first security staff member to respond to the report is required to separate the alleged victim and abuser; preserve and protect any crime scene until appropriate steps can be taken to collect any evidence; if the abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating; and if the abuse occurred within a time period that still allows for the collection of physical evidence, ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. Policy requires that if the first staff responder is not a security staff member, that responder is required to request that the alleged victim not take any actions that could destroy physical evidence and notify security.

Analysis: Documentation reviewed for compliance with this Standard includes: DJS Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance; and staff training materials. During the Pre-Audit process, the audit team noticed that, in the Facility Operating Procedures, the First Responder Duties could have been worded in a way that better reflected the intent of §115.364, and to lower the risk of re-traumatization of a victim. Instead of saying that the victim should be requested not to shower or otherwise destroy evidence, the FOP stated, "Do not allow the victim to shower . . . . " The Standard is very clear that victims are "requested" not to shower, while the staff are to "ensure" that aggressors do not destroy evidence. Even though these differences seem subtle, it is so important for victims to regain a sense of control as soon as possible after an attack: if they refuse requests and insist on cleaning up, they should not be physically restrained or disciplined for doing so. Although the collecting of evidence is extremely important, experienced and well-trained staff can find ways to collect/preserve some evidence while being supportive of an emotionally distraught victim's need to regain composure. A misunderstanding of the First Responder Duties might prolong the traumatic experience, or possibly even re-traumatize a victim. The agency and facility immediately issued an update to the FOP regarding First Responder Duties, and staff were provided refresher training. When interviewed, during the on-site audit, the staff demonstrated a good understanding of these duties. The new training material now states:

• **<u>Request</u>** that the alleged <u>**victim**</u> does not shower, eat, drink, brush their teeth, urinate, defecate, smoke or change clothes until after evidence is collected. Staff shall communicate to the alleged victim the importance of preserving evidence. If the <u>**alleged victim**</u> insists upon washing, the staff shall permit the victim to do so to avoid re-traumatizing.

**Finding:** The facility has shown compliance with this Standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The Carter Center has developed a very detailed written institutional plan to coordinate actions taken, among staff first responders, medical and mental health practitioners, investigators, and facility leadership, in response to an incident of sexual abuse.

**Analysis:** Documentation reviewed for compliance with this Standard includes: DJS Policy RF-701-18 (C 2); FOP 18.9 Staff First Responders and Coordinated Response to Sexual Abuse and Harassment Incidents (and revision as noted in Standard 115.364 above); Maryland State's Attorneys (list); DJS Qualified Staff Member List: DJS Sexual Assault Responder/Support (SARS) Staff; SARS Notification Protocol; Maryland Coalition Against Sexual Assault (MCASA) Sexual Assault Forensic Examiners/Forensic Nurse Examiners (SAFE/FNE); DHR/SSA 180 (CPS reporting form); and Facility Coordinated Response Plan. Since First Responder Duties are listed in the Coordinated Response,

compliance with this Standard relates to the narrative for Standard 115.364 above. The Superintendent has made the Coordinated Response Plan available and provided training.

**Finding:** The facility has shown compliance with this Standard.

The agency has renewed their collective bargaining agreement and maintains the ability to protect residents from abusers.

**Analysis:** Documentation reviewed for compliance with this Standard includes Collective Bargaining Agreement documentation for AFT HealthCare-Maryland Local 5197; the Maryland Professional Employees Council/AFT/AFL-CIO Local 6197; and the American Federation of State, County and

This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DJS has a policy to ensure the protection of all residents and staff who report sexual abuse or sexual harassment, or who cooperate with sexual abuse or sexual harassment investigations, from retaliation by other residents or staff. Exceeding the minimum requirements of this Standard, the agency: (1) designates duplicate administrative staff with official duties of monitoring for possible retaliation; (2) mandates that everyone keeps possible retaliation in mind; and (3) documents this monitoring on a weekly basis. The PREA Compliance Manager and OIG Youth Advocates monitor the conduct and treatment of residents or staff who reported sexual abuse, and of residents who were reported to have suffered sexual abuse, to see if there are any changes that may suggest possible retaliation by residents or staff, for 90 days or as long as needed.

Analysis: Documentation reviewed for compliance with this standard include: DJS Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance (III K); Policy OPS-913-15 Reporting and Investigating Child Abuse and Neglect; Youth Advocate Retaliation Monitoring Form; and PREA Compliance Manager Retaliation Monitoring Form. The audit team reviewed documentation completed by the OIG regarding incidents that occurred in other agency facilities. Although no incidents of retaliation are known to have occurred in the past 12 months, the facility exceeded the expectations of this Standard, as they monitored a resident who expressed a fear of retaliation, although the fear was not connected to an allegation of sexual abuse or sexual harassment. The facility and OIG Youth Advocates each demonstrate that they employ duplicate multiple protection measures and document these weekly, rather than monthly as required by the Standard.

**Finding:** The facility has exceeded the requirements of this Standard.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

There are protocols in policy for youth at the Carter Center who indicate risk of being victimized or abusive. This includes housing decisions regarding any youth who may be alleged victims of sexual abuse. These protocols start upon the youth's arrival and are shaped by information about each youth, and by behavior. Interviews and documentation reviewed indicate that the Carter Center has been able to adequately protect alleged victims of abuse, during the last 12 months, without the use of segregation. Nonetheless, if the need should arise, a degree of brief segregation is allowed for in policy (Policy RF-716-18 DJS Classification of Youth in DJS Residential Facilities, Section B). The other subsections of § 115.342 are also specifically addressed in policy.

**Analysis:** Documentation reviewed for compliance with this Standard includes the above-referenced policy; DJS Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance (III F); and the FOP for At Risk Youth. In addition to the documentation reviewed; and the site review showing single occupancy rooms; interviews with the Superintendent, staff who supervise residents, and with medical and mental health staff indicated full compliance with this Standard. Furthermore, youth indicated knowledge of how the system works and explained to the auditor that no youth would be segregated from other youth for any reason for very long, and it would never be used to allow them to avoid their education, or to deny them medical care or mental health care.

**Finding:** The facility has shown compliance with this Standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DJS has a policy related to criminal and administrative agency investigations that meet all the provisions of this Standard. The agency does not terminate an investigation solely because the source of the allegation recants the allegation. The substantiated allegations of conduct that appear to be criminal are referred for prosecution. The agency retains all written reports pertaining to the administrative or criminal investigation of alleged sexual abuse or sexual harassment for as long as the alleged abuser is a resident or is employed by the agency, plus five years. The Office of the Inspector General usually conducts the facility's administrative investigations. CPS also conducts administrative investigations when the allegation meets their criteria. Law enforcement conducts criminal investigations. When the quality of evidence appears to support criminal prosecution, the agency will conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution. The credibility of an alleged victim, suspect, or witness is assessed on an individual basis and not determined by the person's status as resident or staff. The departure of the alleged abuser or victim from the employment or control of the facility or agency does not provide a basis for terminating an investigation. No resident who alleges sexual abuse will have to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation. When outside agencies investigate sexual abuse, the facility cooperates and endeavors to remain informed about the progress of the investigation.

**Analysis:** Documentation reviewed for compliance with this Standard includes the CPS Contact List; the Coordinated Response Plan; and DJS Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance (III D). No allegations of sexual abuse or sexual harassment were received or investigated at Carter during the past Interviews, and a review of investigative documentation agency-wide, indicate that the agency does these investigations promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. These administrative investigations include an effort to determine whether staff actions or failures to act contributed to the abuse. The investigations are documented in written reports, which include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

**Finding:** The agency and facility have shown compliance with this Standard.

conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy requires that any resident who makes an allegation that she suffered sexual abuse in the facility is informed, verbally or in writing, as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded following an investigation. If an outside entity conducts an investigation, the agency requests the relevant information from the investigative entity in order to inform the resident of the outcome of the investigation. Following a resident's allegation that a staff member has committed sexual abuse against the resident, the facility subsequently informs the resident (unless the facility has determined that the allegation is unfounded) whenever: the staff member is no longer posted within the resident's unit; the staff member is no longer employed at the facility; the agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility. Following a resident's allegation that she has been sexually abused by another resident in an agency facility, the agency subsequently informs the alleged victim whenever the agency learns that the alleged abuser has been indicted or convicted on a charge related to sexual abuse within the facility. The agency has a policy that all notifications to residents described under this Standard are documented.

**Analysis:** Documentation reviewed for compliance with this Standard includes: DJS Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance (E); and Appendix 6-Youth Notice of Investigative Outcome. In the past 12 months, there have been no administrative investigations of alleged sexual abuse or harassment at the Carter Center. Compliance with this Standard was verified through interviews, review of policy, and a review of investigative documentation from other agency facilities (all by OIG Investigators), including the notifications made to resident alleged victims.

**Finding:** The facility has shown compliance with this Standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Carter Center staff are subject to disciplinary sanctions, up to and including termination, for violating sexual abuse or sexual harassment policies. Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. Termination is the presumptive disciplinary sanction for staff who have engaged in sexual abuse. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies.

**Analysis:** Documentation reviewed for compliance with this Standard includes: DJS Policy MGT-03-18 Sexual Harassment/Employment Discrimination Policy (III A); RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance (III H); and DJS Standards of Conduct and Disciplinary Process. Interviews with HR, as with agency, OIG, and facility administrators, also verify compliance with this Standard. In the past 12 months, no staff have been

115.376 (c)

found to have violated agency sexual abuse or sexual harassment policies at the Carter Center, so proof of practice is based on agency-wide practice, as well how knowledgeable and equipped the facility administrators are to carry out their duties related this Standard and the applicable policies.

**Finding:** The facility has shown compliance with this Standard.

## **Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies, and the understanding of facility practices explained during interviews, indicate that any contractor or volunteer found to have engaged in sexual abuse would be reported to law enforcement agencies and to relevant licensing bodies. Policy clearly requires that any contractor or volunteer who

engages in sexual abuse be prohibited from contact with residents. In the past 12 months, there have been no allegations or reports regarding volunteers. The facility takes appropriate remedial measures and considers whether to prohibit further contact with residents in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer.

**Analysis:** Documentation reviewed for compliance with this Standard includes: Facility Programming Chart; DHS Policy RF-701-18 III (I); OPS-908-14; Volunteer List; and investigative files regarding sexual abuse and/or sexual harassment investigations conducted by OIG in the past 12 months. Interviews with supervisors and other administrators indicate compliance with this Standard.

**Finding:** The facility has shown compliance with this Standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Carter Center residents are subject to disciplinary sanctions only pursuant to a formal disciplinary process, following an administrative finding that the resident engaged in resident-on-resident sexual abuse, or a criminal finding of guilt. The following is an excerpt from their Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance Policy (NUMBER: RF-701-18): "J. INTERVENTIONS AND DISCIPLINARY SANCTIONS FOR YOUTH

- 1. Youth may be subject to sanctions pursuant to the behavioral management program following an administrative finding that the youth engaged in youth-on-youth sexual abuse or following a criminal finding of guilt for youth-on-youth sexual abuse.
- 2. The disciplinary process shall be documented on a behavioral report and consider whether a youth's mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed.
- 3. Facility staff shall determine the appropriate intervention, therapy and/or counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. The QBHP [Qualified Behavioral Health Professional] shall consider whether to offer such interventions to the perpetrator. The facility may require participation in such interventions as a condition of access to any rewards-based behavior management system or other behavior-based incentives, but not as a condition to access general programming or education.
- 4. The facility may discipline a youth for sexual contact with staff only upon a finding that the staff member did not consent to such contact.
- 5. For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred, shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.
- 6. All sexual activity between youth is prohibited, to include consensual acts. The facility may not, however, deem such activity to constitute sexual abuse if it determines that the activity is not coerced.
- 7. Incidents of alleged abuse and harassment may be referred to MSP [Maryland State Policy] for determination of criminal charges."

Analysis: Documentation reviewed for compliance with this Standard includes the policy quoted above and DJS Policy RF-716-18 Classification of Youth in DJS Residential Facilities, as well as training and educational materials distributed to staff and youth. An issue that came up during the on-site interviews regarded investigations of sexual abuse and sexual harassment. The PAQ documentation indicated that no allegations of sexual abuse or sexual harassment had been received regarding the facility for the past year. During interviews, half the residents stated a belief that such investigations are not done at the Carter Center, although they should be. They told the auditor that they had been told than an allegation had been made, and that although staff were overheard talking about it, it had not been investigated because staff thought it was false. When staff and administrators were asked whether an allegation had been made, the audit team received a variety of conflicting views. The Office of the Inspector General produced their record of the 211 call that prompted the controversy, but the call did not allege sexual harassment. The caller (the person who made the report) indicated that one resident at the Carter Center made another resident uncomfortable. However, the facility's record of the call to the facility from the 211 Operator, informing them that a complaint had been made, gave the impression that an actual allegation of sexual harassment had been made. Since, at no point, did the OIG reviewers have any indication that an allegation of sexual harassment had been made, they assigned the compliant for investigation by facility investigators, but not as a sexual harassment investigation. In such cases, the welfare of residents is verified, and a determination is made regarding whether any rules or policies have been violated. Any indication of sexual abuse or sexual harassment arising out of such inquiries is immediately reported back to OIG for assignment to a Sexual Abuse/Sexual Harassment (PREA) Investigator. Although no allegation or suspicion of sexual harassment was uncovered during the Facility Management Investigation, there were statements indicating that the 211 call was made "to be petty", but that the contents of the call were true. One youth was given a behavior infraction for making a "false" allegation of sexual harassment. During the 30 days after the on-site audit, the circumstances surrounding the 211 call, and the aftermath, were investigated. There was

evidence produced that more than one youth had, indeed, been feeling uncomfortable. Even though the call might have been made out of pettiness, no allegation of sexual harassment was made; so, whatever the call was, it was not a false report of sexual harassment. Once they had the whole story, and the actual 211 call evidence, the behavior infraction was rescinded by those who issued it. This issue relates to Standard 115.378(f) which states, "For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation." The PREA definition of full compliance with a Standard "means compliance with all material requirements of each standard except for *de minimis* violations, or discrete and temporary violations during otherwise sustained periods of compliance." Since there might have been a misunderstanding of the 211 Operator's description of the call, making it seem like an allegation of sexual harassment when it was not, any violation of this Standard is *de minimus*, and has been resolved.

**Finding:** The facility has shown compliance with this Standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

All residents at the Carter Center who have disclosed any prior sexual victimization during a screening pursuant to ß115.341 are offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening, as per the facility's written policy and procedure. All residents who have previously perpetrated sexual abuse, as indicated during the screening pursuant to ß 115.341, are offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening. Mental health staff maintain secondary materials documenting compliance with the above required services. Information related to sexual victimization or abusiveness that occurred in an institutional setting is strictly limited to medical and mental health practitioners and other staff, and its use is strictly limited to informing security and management decisions, including treatment plans, housing, bed, work, education, and program assignments, or as otherwise required by federal, state, or local law.

Analysis: Documentation reviewed for compliance with this Standard includes the Behavioral Health Referral Form (with verification that the youth was seen); Medical Administration Initial Care Report; Health Status Alert Form (with confidentiality warnings); MDJS History and Physical Examination; Initial Service Treatment Plan; MDJS Youth Admission Intake Questionnaire; MDJS Tuberculosis Screening Form for Youth (with Follow-up Form including Ebola); MAYSI Questionnaire; MDJS Nursing Assessment – 30 Day Review; MDJS Health Services Division Physician Order Sheets; MDJS Pre-Admission Medical Assessment Form (for use if youth flags on the FIRRST Form); MDJS Refusal of Treatment; SASSI; Vaccine Administration Record; Behavioral Health Assessment; MDJS Safety Plan for Alleged Sexual Abuse; MDJS Admission Health Screening and Nursing Assessment; MDJS Allowance of Disclosure; MDJS Progress Notes; and DJS Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment- PREA Juvenile Facility Standards Compliance (III G). Policy reviews, interviews with staff and administrators, and reviews of documentation of these screenings being conducted, provided verification of compliance with this standard.

Carter Center resident victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services. The nature and scope of such services are determined by medical and mental health practitioners according to their professional judgment. Documentation is maintained by medical and mental health staff of the following: the timeliness of emergency medical treatment and crisis intervention services that were provided; the appropriate response by non-health staff in the event health staff are not present at the time the incident is reported; and the provision of appropriate and timely information and services concerning sexually transmitted infection prophylaxis. Treatment services are provided to every victim without financial cost, and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

Carter Center offers medical and mental health evaluation and, as appropriate, and treatment to all residents who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility.

Resident victims of sexual abuse are offered tests for sexually transmitted infections as medically appropriate. Treatment services are provided to the victim without financial cost, and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. Interviews indicate that the evaluation and treatment of victims shall include, as appropriate, follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody. The facility attempts to conduct a mental health evaluation of all known resident-on-resident abusers within 60 days of learning of such abuse history, and it offers treatment when deemed appropriate by mental health practitioners.

Analysis: Documentation reviewed for compliance with this Standard includes: DJS Policy RF-701-18 Elimination and Reporting of Sexual Abuse and Harassment-PREA Juvenile Facility Standards Compliance (III C4, & G); Behavioral Health Referral; Behavioral Health Referral Response Form; Chain of Custody of Medication Transferred; Medical Summary for Consideration of Placement; Maryland Confidential Morbidity Report (DHMH 1140); Safety Plan for Alleged Sexual Abuse; Memo from Director of Behavioral Health and Victim Services Re: Behavioral Health Referral Procedures and PREA Action Plan in all Facilities (Detention and Committed); and Victim Safety/Trauma Plan for Alleged Sexual Abuse and Harassment. Interviews at the facility, as with contractors and community providers, verify compliance with this Standard.

**Finding:** The facility has shown compliance with this Standard.

#### **Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The facility conducts a sexual abuse incident review at the conclusion of every sexual abuse criminal or administrative investigation. Incident Reviews are to be done within 7 days of the conclusion of the criminal or administrative sexual abuse investigation, although the Standard requires this within 30 days. The sexual abuse incident review team includes upper-level management officials and allows for input from line supervisors, investigators, and medical or mental health practitioners. The review team considers whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; and whether the incident or allegation was motivated by

race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or, gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility. The team examines the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse; and the team also assesses the adequacy of staffing levels in that area during different shifts. They assess whether monitoring technology should be deployed or augmented to supplement supervision by staff. They report their findings, and any recommendations they have for improvement, to the facility head, and to the PREA Compliance Manager.

Analysis: Documentation reviewed for compliance with this Standard includes: Sexual Assault Incident Review Team Memo; DJS Policy RF-701-18 (III M); FOP Incident Review; and Appendix 10 Sexual Abuse Incident Team Review Form, with revisions. At Carter, the Superintendent, a Mental Health Clinician, RN Supervisor, Group Life Manager and Case Manager serve on the Incident Review Team at this time. In the past 12 months, there have been no investigations of alleged sexual abuse or harassment, so no Incident Reviews have been required. Interviews indicate that Incident Review Team Members are familiar with their duties and that there are no barriers to compliance with this Standard, and the facility will implement any recommendations for improvement or document its reasons for not doing so.

**Finding:** The facility has shown compliance with this Standard.

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.				
The Carter Center compiles accurate, uniform data for every allegation of sexual abuse, using a standardized instrument and set of definitions, and provides this to the State of Maryland at least annually. The facility maintains, reviews, and collects data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews.				
<b>Analysis:</b> Documentation reviewed for compliance with this Standard includes: Survey of Sexual Victimization Forms 2017, DJS Policy OPS-900-15 Residential Facilities and Community Operations; DJS Policy RF-701-18 (III M 3); and the Incident Reporting Forms. The PC, PCM, and facility Superintendent verified and explained this process, describing a system with proper oversight and integrity to justify a high degree of confidence in the reliability of their data.				
Finding: The facility has shown compliance with this Standard.

Instru	ctions	for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency reviews data collected and aggregated pursuant to §115.387 in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, and training, including: identifying problem areas; taking corrective action on an ongoing basis; and preparing an annual report of its findings from its data review and any corrective actions for each facility, as well as the agency as a whole. Comparative data on sexual abuse allegations and findings is listed on the Maryland Department of Juvenile Services public website. The annual report includes a comparison of the current year's data and corrective actions to those from prior years. The annual report provides an assessment of the agency's progress in addressing sexual abuse. The agency makes its annual report readily available to the public, at least annually, through its website. The annual reports are approved by the agency head, as per protocol. When the agency redacts material from an annual report for publication, the redactions are limited to specific materials where publication would present a clear and specific threat to the safety and security of the facility, and the agency indicates the nature of material redacted.

**Analysis:** To show compliance with this Standard, the agency and facility provided DJS Policy RF-701-18 (III M, 4 and 5 e); DJS 2017 & 2018 Annual Reports; and the publications on the DJS Website. Interviews with administrators, and other data available through the audit process, provided evidence of compliance.

**Finding:** The facility has shown compliance with this Standard.

# Standard 115.403: Audit contents and findings

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

#### 115.403 (f)

The agency has published on its agency website, if it has one, or has otherwise made publicly available, all Final Audit Reports within 90 days of issuance by auditor. The review period is for prior audits completed during the past three years PRECEDING THIS AGENCY AUDIT. In the case of single facility agencies, the auditor shall ensure that the facility's last audit report was published. The pendency of any agency appeal pursuant to 28 C.F.R. § 115.405 does not excuse noncompliance with this provision. (N/A if there have been no Final Audit Reports issued in the past three years, or in the case of single facility agencies that there has never been a Final Audit Report issued.) ☑ Yes ☐ No ☐ NA
